II. L-Art 329B tal-Kap 386

a) Harsa generali

Il-procedura tal-irkupru ta` kumpannija maghrufa bl-Ingliz bhala *company recovery procedure* jew *company rescue* kien introdott ghall-ewwel darba bl-Att IV tal-2003 meta sar l-Art 329B tal-Kap 386 tal-Ligijiet ta` Malta. In segwitu saru emendi ghall-istess disposizzjoni, l-ahhar wahda bl-Att XI tal-2017.

L-Art 329B huwa disposizzjoni **twila u komplessa**.

Il-Qorti qegħda taqsamha f`**sitt (6) partijiet**.

L-ewwel parti tingabar fis-subartikoli (1), (2) u (3). Hija ta` natura pregudizzjali fis-sens illi l-ligi tinseg il-kondizzjonijiet li fuqhom il-Qorti trid tasal għad-decizjoni tagħha li jew tichad it-talba jew inkella illi tagħmel l-ordni biex il-kumpannija titqiegħed taht procedura ta` rkupru.

It-tieni parti tingabar fis-subartikolu (4) fejn hemm trattati l-effetti ta` procedura ta` din ix-xorta, li jibdew ighoddju mid-data tal-

presentata. Dawk l-effetti jintemmu fid-data li fiha t-talba ma tintlaqax. Jew ikomplu matul iz-zmien kollu li fih tkun giet awtorizzata l-procedura biex kumpannija tirkupra.

It-tielet parti migbura fis-subartikoli (5) (6) (7) (10) u (11) tittratta l-hatra, tnehhija jew vakanza tal-kontrollur specjali kif ukoll, is-setghat u d-dmirijiet tieghu.

Ir-raba` parti hija s-subartikoli (8) u (9) fejn huma trattati kwistjonijiet ta` x`ghandu jsir meta fil-kors tal-procedura ta` rkupra negozju frawdolenti jew negozju hazin.

Il-hames parti hija s-subartikoli (12) u (13) li tittratta dwar it-terminazzjoni tal-ordni u l-ghoti ta` dokumenti lir-Registratur tal-Kumpanniji.

Is-sitt parti tingabar fis-subartikolu (14) li jittratta l-istralc tal-kumpannija mill-Qorti wara li jkun irrizulta li l-kumpannija ma jkollhiex prospetti ragonevoli biex tkompli bhala azjenda vijabqli u ma tkunx f`qaghda li thallas id-djun tagħha b`mod regolari fil-futur.

c) **Il-kondizzjonijiet sabiex tinghata l-ordni**

Billi huma pregudizzjali min-natura tagħhom, il-Qorti sejra tikkoncentra l-analizi tagħha fuq is-subartikoli (1) (2) u (3) tal-Art 329B.

Skont **l-Art 329B(1)(a)** meta kumpannija ma tkunx tista' thallas id-djun tagħha jew jew x'aktarx ikun imminenti li ma tkunx tista' thallas id-djun tagħha, ikun hemm lok illi jsir rikors fejn il-Qorti tintalab sabiex il-kumpannija titqiegħed taht procedura biex kumpannija tirkupra u biex tahtar kontrollur specjali biex jiehu kontroll hu, biex jimmanigga u jamminstra n-negozju tal-kumpannija għal zmien specifikat mill-Qorti.

Fil-kaz tal-lum, ghar-ragunijiet li kienu mfissra fl-ewwel parti tar-rikors promotur, u kkonfermati fid-deposizzjoni *viva voce* moghtija minn Kristian Haehndel, ir-rikorrenti **jaccettaw** illi l-qaghda tagħhom tinkwadra ruhma fis-sitwazzjonijiet previsti fil-paragrafu (a) tas-subartikolu (1) ghaliex fid-data tal-prezentata tar-rikors, ma kienux f`pozizzjoni li jhallsu d-djun tagħhom. Fil-fatt fost id-dokumenti li kienu prezentati mar-rikors kien hemm il-*Management Accounts* relattivi għal kull kumpannija rikorrenti sat-18 ta` Marzu 2019, kif ukoll lista tal-kredituri, u x`huwa dovut lilhom.

Skont **I-Art 329B(1)(b)** rikors skont din il-procedura jista` jigi prezentat - (i) jew mill-kumpannija wara rizoluzzjoni straordinarja ; jew (ii) mid-diretturi wara decizjoni tal-bord tad-diretturi ; jew (iii) mill-kredituri tal-kumpannija li jirraprezzentaw aktar minn nofs il-valur tal-kredituri tal-kumpannija. Fil-kaz tal-lum, ir-rikors kien prezentat mis-sitt rikorrenti, wara rizoluzzjoni straordinarja f'kull wahda li ttieħdet fil-25 ta` Marzu 2019 (ara Dok D1 sa D6).

Fl-Art 329B(2) il-ligi tidhol fid-dettall ta` x`ghandu jkun inkluz fir-rikors promotur. Il-ligi tagħmel dan ghaliex peress li l-qorti tkun trid tippronunzja ruhma dwar ir-rikors fi zmien relativament qasir, tajjeb li l-qorti jkollha bizzejjed informazzjoni u tagħrif, korraborati b`dokumenti, sabiex tkun tista` tagħha d-decizjoni tagħha b`heffa, u ma tkunx kostrett tisma` xieħda u tigħbor provi ohra fit-tul. Fil-kaz tal-lum dak rikjest mil-ligi kien rispettat mill-bidu sal-ahhar.

Id-disposizzjoni taqra hekk :-

(a) *Rikors għandu, kemm hu possibli, jaghti l-fatti, ic-cirkostanzi u r-ragunijiet kollha li wasslu biex il-kumpannija ma tkunx tista' jew ikunu imminenti li ma tkunx tista' thallas id-djun tagħha, flimkien ma' dikjarazzjoni mir-rikorrent ta` kif il-qaghda finanzjarja u ekonomika tal-kumpannija tkun tista' tittejjeb fl-interessi tal-kredituri u ta' l-impiegati tagħha u tal-kumpannija nnifisha bhala azjenda vijabbi.*

(b) *Meta rikors ikun magħmul mill-kumpannija, għandhom ikunu annessi mieghu d-dokumenti li gejjin :*

(i) *dikjarazzjoni ta' l-attiv u l-passiv tal-kumpannija maghmula sa data li ma tkunx qabel id-data tar-rikors b'iktar minn xahrejn ; u*

(ii) *lista li jkun fiha l-ismijiet u l-indirizzi tal-kredituri flimkien ma' indikazzjoni ta' l-ammont dovut lil kull wiehed minn dawk il-kredituri u s-sigurtà, jekk ikun hemm, tal-kredituri rispettivi ...*

L-Art 329B(3) jiddetermina x`ghandha tagħmel il-qorti wara li tkun semghet ir-rikors.

Id-disposizzjoni tħid hekk :-

(a) *Meta tisma' rikors, il-Qorti tista', wara li tezamina cirkostanzi kollha u l-azzjonijiet li jkun hemm, jew tichad ir-rikors jew toħrog ordni biex kumpannija tirkupra ... fejn tilqa' t-talba u tqiegħed lill-kumpannija taħt procedura biex kumpannija tirkupra.*

(b) *Il-Qorti għandha tilqa' r-rikors, u skond dan tqiegħed lill-kumpannija taħt procedura biex kumpannija tirkupra, biss jekk -*

(i) *tkun sodisfatta li l-kumpannija ma tkunx tista', jew x'aktarx ikun imminenti, li ma tkunx tista', thallas id-djun tagħha skond kif imfisser fl-artikolu 214(5) ; u*

(ii) *jekk tikkunsidra li l-ordni x`aktarx jilhaq xi wieħed mill-ghanijiet li gejjin :*

- *li l-kumpannija tibqa' azjenda vijabbbli għal kollox jew f'parti ;*

jew

- *is-sanzjonament taħt l-artikolu 327 ta' kompromess jew arrangament bejn il-kumpannija u kull kredituri jew membri tagħha*

(c) *Fl-egħmil ta' ordni, il-Qorti għandha tikkunsidra :*

(i) *l-ahjar interassi tal-kredituri, ta' l-azzjonisti u tal-kumpannija nnifisha, u l-possibbiltà li thares l-impjieg kif ikun jidher ragonevoli u finanzjarjament possibli fic-cirkostanzi ; u*

(ii) il-kost li jkollu jsir biex tkun adottata procedura biex kumpannija tirkupra, partikolarment id-drittijiet u l-ispejjez li jkollhom jithallsu.

Skont l-**Art 329B(3)(e)**, il-qorti għandha tiddeċiedi jekk tichadx ir-rikors jew tagħmilx ordni biex kumpannija tirkupra fi zmien ta' mhux aktar minn erbghin jum tax-xogħol minn meta jkun prezentat ir-rikors.

Fil-kaz illi l-qorti tagħmel l-ordni biex kumpannija tirkupra, allura skont l-**Art 329B(1)(d)**, il-hatra ta' kontrollur specjali għandha ssir għal zmien ta' mhux iktar minn erba` xħur ; izda f kull zmien li matulu jkun hemm fis-sehh procedura biex kumpannija tirkupra, il-qorti tista' , jekk tintwera raguni xierqa, testendi zmien b`perijodu jew b`perijodi ta' erba` xħur, izda b`kollo ma jacedux it-tmien xħur.

III. Dottrina

Il-procedura sabiex kumpannija tirkupra ssib il-mudell tagħha fil-procedura tal-"**administration**" kif din tirrizulta fis-Schedule B1 tal-Insolvency Act 1986 tal-Ingilterra. Bla ma tidhol fid-dettall ta' kif topera l-procedura fid-Dritt Ingliż, din il-Qorti tirreferi biss ghall-Art 11 tas-Schedule B1 li jghid hekk : "The court may make an administration order in relation to a company only if it is satisfied – (a) that the company is likely to become unable to pay its debts ; and (b) that the administration order is reasonably likely to achieve the purpose of administration.

Inghad minn **Bailey, Groves & Smith** fil-Pag 120 tal-ktieb "**Corporate Insolvency**" (2nd. Edit, 2001) illi –

"Inevitably the procedure obliges the court, lawyers and accountants to approach the problem raised with commercial awareness and sensibility. The court, in particular, is being asked on the hearing of the petition to make a commercial judgement which is often difficult to make even for a business person. The procedure is court based and professional advisers must be involved from the earliest point possible ; much of the success of the procedure will

depend on the preliminary work leading up to presentation of the petition."

Fil-Pag 45 tal-ktieb : "**Principles of Maltese Company Law**"
(Malta University Press – 2007) **Andrew Muscat** ighid :-

"The primary aim of this far reaching procedure is to allow, if practicable, companies in financial difficulty to recover rather than to be put them into liquidation. The procedure is intended to be an alternative to the liquidation of a troubled business. It is not however intended to make effective insolvency or to merely postpone the inevitable crash".

Dan tal-ahhar huwa kliem iebes izda preciz li jqieghed lill-Qorti fuq il-binarji propji meta tkun rinfaccjata bi procedura ta` din ix-xorta.

IV. Konsiderazzjonijiet

1. Ix-xiehda ta` Kristian Haehndel

Apparti d-dokumenti li kienu prezentati mar-rikors, u anke wara, ix-xhud principali f` dan il-procediment kien **Kristian Haehndel**. Dan huwa l-Kap Ezekuttiv tar-rikorrenti, u llum *ultimate beneficial owner* taghhom, illi ta lill-qorti kwadru preciz ta` kull ma huwa rilevanti sabiex tagħti l-provvediment tal-lum.

a) In-negoju

In-negoju tar-rikorrenti fis-sostanza jdur mas-sistema tal-blockchain u l-crypto-currency.

b) Ir-ragunijiet għall-formazzjoni tar-rikorrenti

Xehed hekk :-

... We originally created the company in Germany ... we migrated some of the operations to Malta. We also have a series of different companies that support the blockchain ecosystem in Malta.

In 2017 we arrived in Malta and met with several members of the Government as well with the MFSA. We have experience in blockchain for many years in Germany, and our partners at the time were one of the largest blockchain companies in the world. We had actively decided to promote blockchain in Malta, and around the end of 2017 we moved our operations here.

We looked at integrating the company as a pilot for the MFSA and for the Government to introduce a kind of landing strip where we can promote through our channels and our community other blockchain companies to arrive in Malta, and over that period from end of 2017 all the way up to middle of 2018 we were actively engaged with MFSA, with the Government, and promoting the potential of the economic benefits of blockchain ...

We were supporting on the consultation, it was stimulated by a combination of elements, one the potential to pilot new technology, and two to be involved in allowing, having a much more prominent role in the legislation.

DQR-X Limited was the original formation that was created at the early 2018. We quickly realised when we arrived on the island that the infrastructure of the ecosystem to support such a business was not at a mature state.

We decided to establish a second holding company which would address all of the needs for any blockchain participant on the island. We had the support of partners, Genesis Mining, the largest blockchain company, and we systematically went and grew these companies in an attempt to fill the gaps.

c) Il-kobor “mghagħġel” tal-2018

Kompli jixxed :

... we expanded from a small group of people, 10 or 15, all the way to 108 employees.

We had multiple apartments and offices in the Sliema region ...

d) Diffikultajiet finanzjarji ta` Genesis Mining

Stqarr :

... early October, we received information from our partners that they are experiencing financial difficulties, the market conditions of crypto currency had also fallen by 18% approximately, and they had asked us to consolidate, restructure the company, and later on that month asked us to file for insolvency.

e) Id-dilemma

Skont ix-xhud, meta waslet dik l-informazzjoni dwar il-qaghda finanzjarja ta` Genesis Mining, ir-rikorrenti kienu fuq nett tal-izvilupp tal-prodott taghhom.

Ighid :

... We had systems integrated for compliance, auditing and reporting. We had developed a full front office and back office, so customer support, customer relationship management. We had promoted both blockchain events as well as a primary sponsor, and established relationships internationally, as well as onboard clients in the retail market.

Personally I invested €2,000,000, my entire livesavings. The other partners Genesis Mining had invested €1,000,000 to €2,000,000 as well.

f) Qaghda finanzjarja : iebsa u delikata

Fisser illi :

In October we had a burn rate of approximately €750,000 a month. This was financed predominantly by Genesis Mining. We had a

range of international consultants that were supporting the business, as well as a range of third party suppliers, some local and some international. Of course we had 100 employees in the various companies. We immediately saw the potential to restructure and consolidate the companies, reducing the costs, and tried to channel our assets in what we had developed in one core business, which was DQR-OTC.

g) It-trasflement tal-ishma ta` Genesis Mining

Kompla jixhed :

Genesis Mining had suggested to go insolvent to solve the problem. I explained to Genesis that going insolvent was damaging for the blockchain space, also having economic problems to Malta as well, because we were so promoting it and really in front of it. So I decided to take a vote and if they wanted to leave, then I would consume the liability and proceed forward into a recovery phase. We then paid off the December salaries, and reduced all of the staff to the core functions. We went down from 108 to around 10. We put all our focus on delivering the product not for the retail market but for the institutional market.

Genesis Mining went out of the company by transferring its shareholding to him personally. He took over the liability himself. Today he is the sole shareholder of the holding company and the sole director.

h) Il-kredituri

Stqarr illi mal-kredituri gabu ruhhom mill-aktar mod apert.

Jixhed :

We notified the major creditors and asked them to submit the proposal for payment structure over a period of twelve to twenty four months.

The creditors have submitted a proposal on what they anticipated a payment schedule.

...

We have one creditor, who filed a case against us for €55,000. His claim was admitted. Naturally the case was decided against us. So far the €55,000 have not been paid.

We have many different letters from legal offices being sent to us, and of course threatening to disrupt or threatening to call psychological disturbance to our process here, and of course we meet with creditors on a personal level, and we had many instances where people have stolen equipment from our offices, have taken different things, and we've been trying to deal with it in a humane level.

The major creditors have been informed of the special recovery procedure.

i) Vantaggi bil-DQR-OTC

Ighid illi fil-formazzjoni ta` DQR-OTC,

... we were able to onboard a new investor, who is consuming a share for every tranche necessary to keep us moving forward.

We then engaged our institutional partners in Switzerland, to deliver our product, which is now in maturity to go to the market, and we are in the middle of a joint venture agreement with the banks in Switzerland. So we are in a critical stage when in four to six weeks we launch our product and commence generating fees on the trading that is conducted on the platform.

The business model is going to be a joint venture between the OTC and the Swiss partner.

...

The Swiss joint venture partner is Falcon Private Bank.

Falcon Private Bank is a very advanced blockchain bank, and they are looking at becoming a leader in Switzerland as the blockchain

institution. They are owned by a Consortium known as Mubadala with approximately \$280,000,000,000 under management, and the product which we have developed is of great interest to the consortium ...

j) Il-prodott il-gdid

Fisser illi :

The product is a blockchain token design for central banks in the banking system. The Swiss entity in Zurich is interested in promoting the product to their partner banks and their clients, so they are entering into this agreement in an attempt to develop technology and distribute it to the banking network directly in Switzerland. The desk will sit in Malta under DQR-OTC, and that will be the platform in which multiple institutions will onboard and make transactions amongst each other.

k) Prodott fuq ix-xogħol diga` kompjut

Stqarr illi mar ghall-procedura odjerna ghaliex bil-prodott il-gdid gestit mill-OTC ix-xejra ghall-futur tkun posittiva.

Ighid :

I wanted to use the infrastructure that was developed, and all the hard work that was developed in the Maltese company, and I didn't want to abandon Malta and simply set up another company in a different jurisdiction. I felt that as a blockchain company and as promoters of technology we had to set an example for the rest of the community that if we have problems we face them and we find solutions.

There are two provisional licences from the MFSA that allows us to conduct the trading. One is in DQR-X and the other one is in DQR-OTC, the company which is going to recover.

Because we are moving the business away from retail market to institutional market, the volumes suggested a very quick recovery for DQR-OTC and the rest of the eco system, and the volumes that we are

estimating we have proposed in the documents which are structured over a period of several months of testing, so we have institutional clients testing the product and generating fees at that time, and then moving into complete production where it will be spread to the banking systems in Switzerland. So they are very substantial.

We will move the fees generated from OTC to the holding company, the holding company will then systematically pay off the debts of the other subsidiaries, and then we will decide to either liquidate the subsidiary once the debt is complete or absorb it directly into the DQR business model. So once we eliminate our liabilities we are intending to stay lean and focused on the core function.

I) Investment qdid

Ix-xhud irrefera ghas-share purchase agreement (Dok E1).

Stqarr illi wiehed mill-akbar kredituri taghhom huwa MB Swiss Solutions SA u dan :

has come in as an investor to support DQR.

Skont Dok E1,

€290,000 are pledged, so to say, to the company in three tranches. €97,000 have been paid for the month of March, and another two instalments are anticipated for April and May. Actually a second instalment has been received as well. The investor will receive in return shares in the DQR-OTC ...

m) Il-hlas tal-kredituri

Ix-xhud accerta lill-qorti illi :

We are able to pay off everything within the four months, but definitely we can structure a payment plan during those four months.

n) Il-Proposta ta` Rkupru

Dwar id-dokument intitolat "DQR-OTC to Recover the Group" (Dok C1) stqarr illi kien huwa li kiteb id-dokument u l-kontenut huwa propositiv u frott ir-riflessjonijiet tieghu.

o) Il-kontijiet

L-accounts kien preparati internament minn Ben Carlotti, Chief Financial Officer, u kienu awditjati wkoll.

L-istess Carlotti kkonferma l-accounts bil-gurament tieghu fl-udjenza tal-5 ta` April 2019.

2. Il-fehma ta` din il-Qorti

Wara li ghamlet ezami tal-kontijiet tar-rikorrenti, u wara li qieset dak dovut lill-kredituri, il-Qorti tistqarr li l-qaghda finanzjarja tar-rikorrenti mhijiex felici ghax *conti in mano* fid-data tal-presentata tar-rikors odjern kienet tinsab f`xifer l-insolvenza, kif mif huma fil-Kap 386.

Il-qaghda difficli tar-rikorrenti hija rikonoxxjuta u accettata minn Kristian Haehndel. Il-qofol ta` kollox huwa jekk is-sitwazzjoni hijiex irreversibbli nkella le.

Din il-Qorti tistqarr bla tlaqlieq illi xejn ma kien izomm lill-*ultimate beneficial owner* milli jmur ghax-xoljiment u stralc tar-rikorrenti, kif *del resto* jidher illi kien ipropona dak li qabel kien l-azzjonista l-iehor u ciee` Genesis Mining.

Ir-riskju kien illi l-kredituri jispiccaw ma jiehdu xejn.

Minflok ghazel il-procediment tal-lum.

Ghamel din l-ghazla sabiex izomm il-kredibilita` tieghu mal-kredituri kif ukoll sabiex litterament “ma jarmix” kull hidma fil-kamp tas-sistemi ta` blockchain avvanzati li kien irnexxielu johloq bil-hidma tieghu u tal-ghadd ta` impjegati li kellu.

Il-Qorti tagħti affidament lit-testimonjanza ta` Kristian Haehndel ghaliex setghet tapprezzza l-komportament tieghu meta xehed *viva voce* quddiemha kif ukoll kif *punto per punto* kull ma xehed huwa konfortat minn dokumenti.

Il-Qorti tghid illi r-recovery proposal u d-dokumenti l-ohra prima facie huma fattibbli, u ma jippreġudikawx lill-kredituri.

Għalhekk sejra tqis ir-rikors b`mod favorevoli, ghaliex hija sodisfatta li r-rikorrenti qaghdu ma` dak kollu li jitlob l-Art 329B, inkluz illi l-qorti nghannej spjegazzjoni tac-cirkostanzi li wasslu ghall-qaghda ta' bhalissa.

Il-Qorti qieset kif il-progett tar-rikorrenti jista` jaqleb il-qaghda finanzjarja tagħhom lejn il-posittiv ghall-benefiċċju tagħhom, tal-azzjonisti u tal-kredituri, sahansitra bil-fatt li jibqa` jsir negozju, sakemm jinhelsu d-djun u jkun hemm folja gdidau tajba abbażi ta` prodott diga` mahluq.

Il-Qorti tishaq illi l-pjan tal-irkupru propost mir-rikorrenti mhuwiex a *fairy tale*.

B`hidma assidwa fejn kulhadd izomm saqajh ben saldi mal-art jista` jigi attwat fl-interess ta` kull min qiegħed flusu fil-progett originali li nkalja, izda u fuq kollox fl-interess tal-kredituri.

Bi strategija azjendali attenta, il-kurrent avvers jista` jigi rimedjat.

Il-Qorti terga` tishaq illi l-azzjonist tar-rikorrenti minflok mar ghall-procedura ta` xoljiment u stralc bil-konsegwenzi kollha (aktar negattivi milli posittivi tagħha) li procedura ta' dik ix-xorta timporta, irrikkorra ghall-procedura tal-lum sabiex prevja d-debiti kawteli, kif ukoll kontrolli mill-qorti, isiru l-bidliet kollha li hemm bzonn sabiex hadd ma jibqa` l-art specjalment il-kredituri.

Din il-fehma tagħha hija riaffermata kemm b`dak li kien verbalizzat mir-rikorrenti fl-udjenza tal-5 ta` April 2019 kif ukoll bid-dokumenti li kienu prezentati b`nota mir-rikorrenti fit-12 ta` April 2019. Dan għaliex il-Qorti għandha l-konfort li kull ma ser jidhol mill-ftehim ma` MB Swiss Solutions SA ser imur l-ewwel sabiex jithallsu l-kredituri għas-saldu.

Il-Qorti tghid illi l-kredituri għandu jkollhom l-interess li jithallsu finalment fi zmien ragonevoli dak li għandhom jieħdu, mhux jaraw lid-debitur tagħhom imut mewta (naturali jew forzata) bil-konsegwenza reali li jispicċaw ma jirkupraw xejn jew ftit minn dak dovut lilhom. Naturalment f'cirkostanzi ta' din ix-xorta il-bilanc tal-interessi għandu rilevanza ewlenija.
