The Tribunal,

Having seen the Claim Form (Form A) filed by the claimant company on the 11th June 2019 whereby the same, in lieu with Regulation (EC) no 861/2017 requested the Tribunal to condemn the defendant company to pay it the sum of five thousand euro (€5,000) for services rendered by the claimant company to the defendant company.

Having seen that the defendant company was duly notified on 23rd July 2019 and having noted that the defendant company submitted no reply to contest the claim of the claimant company.

Having seen that both parties to these proceeding did not demand an oral hearing (see Section 8.3. of Form A and Section 3 of Form C).

Now therefore the Tribunal is proceeding to deliver its present decision upon the documentary evidence submitted.

Decision

The Tribunal, having seen the documents submitted, and in the light of the above considerations, decides that the claim of the claimant company is sufficiently proven and orders the defendant company to pay the claimant company the sum of five thousand euro (€5,000) with legal interests from the date that the amount became due up to the date of payment.

All relative expenses connected with these proceedings are to be borne by the defendant company.

Finally, the Tribunal orders that a copy of this judgement is served upon the parties in terms of Article 13 of Regulation (EC) no 861/2007.
