FATTI

Illi dina l-kawza tirrigwarda incident li gara l-Italia meta zewg makni industrijali li kienu qed jingarru fuq *trailer* mis-socjeta' konvenuta, sfaw mahruqa u danneggiati totalment meta wahda mir-roti qabdet u hadet in-nar u mbagħad in-nar infirex u hakem *it-trailer* bil-makni b'kollo. L-atturi, bhala assikuraturi, qed ifittxu għal hlas li huma għamlu lill assikurat tagħhom wara li kienet saret *claim* minnhom fuq dina l-hsara u huma gew surrogati fid-drittijiet tal-assikurat tagħhom. Huma qed jitkolbu s-somma komplexiva ta' Lm55,544, liema somma tinkludi s-survey fees.

KONTESTAZZJONI

Il-konvenuti, ghalkemm kontumaci, fin-nota li gew awtorizzati li jagħmlu, (artikolu 158/10 tal-Kap 12) issottomettew li skond ir-rapport li sar barra minn Malta u li gie ezibit fil-process, jirrizulta (ara fol. 39 u fol. 116) li l-kawza ta' l-incident kienet "mechanical breakdown" u dan kien relatat ma l-istess uzu ta' l-istess vettura. Il-hsara kienet tikkonsisti fi ksur ta' parti wahda mir-roti ta' wara. Skond l-istess rapport, fatturi ohra bhala velocità qabel l-incident ma kienitx il-kawza ta' l-istess. Meta kienu ezaminati r-roti kienu jidhru mantenuti u nstabu f'kundizzjoni tajba. Ir-rota li waslet għan-nirien kellha tracci ta' "grease" u dana nonostante l-hruq li sehh.

L-atturi minn naha l-ohra qed jissottomettu li l-konvenuti huma responsabili billi ma ppruvawx li huma hadu dawk il-prekawzjonijiet kollha biex tigi evitata l-hsara li kkaggunat in-nar, specjalment jekk huma qed jistiehu fuq id-difiza li jaghti l-artikolu 17(2) tac CMR.

KONSIDERAZZJONIJIET

Responsabilita tat-trasportatur

Jirrizulta li t-trasport in kwistjoni huwa regolat bir-regolamenti tac CMR (ara dok a fol 6 tal-process.)

Il-bazi tar-responsabilita' tat-trasportatur tohrog mill-artikolu 17(1) tal Carriage of Goods by Road (CMR) li jipprovvdji li:

"The carrier shall be liable for the total or partial loss of the goods and for damage thereto occurring between the time when he takes over the goods and the time of delivery, as well as for any delay in delivery."

Il-konvenuti, ghalkemm kontumaci, fin-nota taghhom, qed jirritjenu li huma m'humiekk responsabili ghal dak li gara billi l-hruq kien rizultat ta' *mechanical breakdown fit-trailer*. Huma qed jibbazaw id-difiza taghhom fuq l-artikolu 17(2) tas CMR u senjatament fuq il-parti li tipprovvdji li:

"The carrier shall... be relieved of liability if the loss, damage or delay was caused ...through circumstances which the carrier could not avoid and the consequences of which he was unable to prevent".

Dwar dina d-difiza l-awtur **M. A. Clarke fil-ktieb tieghu "International Carriage of Goods by Road: CMR"** 3rd Edition isemmi l-leading case in materja **Sibler v Islander Trucking, (1985)** fejn Mustill J. stabilixxa li "Article 17.2 sets a standard which is somewhere between, on the one hand, a requirement to take every conceivable precaution, however extreme, within the limits of the law, and on the other hand a duty to do no more than act reasonably in accordance with prudent current practice.... Article 17.2

requires the utmost reasonable care compatible with good sense”.

Dana jfisser li t-trasportatur irid jezercita aktar minn *reasonable care in accordance with current practice in the transport industry* u gie meqjus li l-grad ta’ “care” li għandu jkun hemm hu “barely distinguishable from liability without fault”. L-istandard ta’ “utmost care” tas 17.2 huwa aktar minn dak ta’ “*reasonable care*” u għandu jigi assessjat fil-prattika fil-kaz konkret u mhux fl-astratt.

L-istess awtur ighid li “*a fire which starts in the vehicle or its equipment is a defect in the vehicle and thus no defence, whether it could have been avoided by the carrier or not*” u jikkwota il-kaz ta’ O.L.G.Dusseldorf 18.11.71 fejn kien hemm prova li l-hruq beda mit-tyres. Il-Qorti kienet iddecidiet li “*the carrier had to show absence of any defect in the vehicle. The carrier showed that the vehicle was new and in good condition . The Court was not satisfied, stating that the carrier must prove that the cause could not lie with the vehicle. The onus is heavy, perhaps because the Courts are aware that defects may appear in the vehicle as a result of misuse by the driver; tyres may burst because the driver has hit the curb and may catch fire because of overheating in the brakes.*

Fil-kaz Brussels 17.6.71 li *the carrier proved that the tyre in question was in good condition at the beginning of the journey and argued that therefore the damage had occurred in circumstances which he could not avoid. The Court however held the carrier liable saying that the evidence produced by the carrier does not exclude the possibility that the damage was caused by error, carelessness or negligence on the part of the driver...and does not at all imply that it was impossible for the carrier to avoid the circumstances causing the damage or to prevent their consequences”.*

Fil-kaz in ezami, skond ir-rapport li sar barra minn Malta, a fol 116:

the fire developed in correspondence of the left rear wheel of trailer due to mechanical breakdown.....From our inspection, we may reasonably hypothesise that, breakage of the second roller bearing of the left rear wheel and consequent friction between rolls, shearing hub and the housing of shearing hub inside drum had caused increase in temperature. Turning of wheel, due to vehicle drive and the weight of loaded cargo, made temperature rise up to causing melting of roller bearing and burning of grease and dust present therein. Soon as the driver stopped to verify what was happening the tyre due to high temperature reached by drum caught fire..... The breakage of the roller bearing may rely in possible mechanical breakdown due to usage....

Biex jehles mir-responsabilita, it-trasportatur ghalhekk irid jipprova li hu ha l-mezzi kollha biex jevita kull hsara u li *it was impossible for the carrier to avoid the circumstances causing the damage or to prevent their consequences.* Mhux bizzejjed li c-cirkostanzi kienu straordinarji imma jridu jkunu tant straordinarji li jrrenduha impossibili lill carrier li jimpedieha anke bl-akbar diligenza.

Fil-kaz in ezami kien jispetta lill konvenuti li jiproducu *history* u *maintenance records* tal vettura biex juru li t-trailer li kien qed jintuza ghal *transport* fit-tul internazzjonali ta' merkanzija kien qed jigi regolarment serviced u moghti *maintenance* adekwata u li ma kien hemm xejn hazin fit-trailer precedentement. Fil-fatt dina l-prova ma saritx u dawn ir-records ma gewx prodotti.

Il-fatt biss li kien hemm *mechanical breakdown* fit-trailer ma jezonerax lill konvenuti mir-responsabilita'. Il-konvenuti ma ppruvawx li kien impossibili ghalihom li jevitaw dana l-incident. Jidher li l-mechanical breakdown setgha jigi evitat bid-debita attenzjoni u manutenzjoni. Jirrizulta li fit-tlett roti ma sviluippawx problemi mentri fir-rota partikolari kien hemm nuqqas li kkawza l-incident u li l-konvenuti setghu jevitaw. Waqt li r-roti l-ohra kellhom manutenzjoni ghax kien jidher li kellhom *grease*, dik li minnha qabad innar ma kelliex *grease* jew jekk kellha ma kelliex bizzejjed specjalment meta wiehed jikkonsidra t-toql tal-

merkanzija li kien qed igorr fuq dak it-tragitt fit-tul. Inoltre minhabba n-nuqqas ta' informazzjoni dwar **it-trailer** ma jirrizultax jekk din *il-wheel hub* qatt gietx riparata qabel jew kelliex bzonn li tinbidel. Minhabba wkoll dan in-nuqqas ta' dokumenti dwar l-istat *tat-trailer*, il-Qorti lanqas tista' tezamina jekk "*the condition of the vehicle ...was fit to receive and to contain the goods of the type in question*", f'dan il-kaz zewg makni kbar hafna (ara ritratti).

Ghalhekk anke taht l-artikolu 17(3) tac CMR l-konvenuti ma jistghux jigu ezonerati mir-responsabilita' billi *the carrier shall not be relieved of liability by reason of the defective condition of the vehicle used by him*.

Danni

Il-konvenuti qed jissottomettu li huma m'ghandhomx ihallsu l-ammont kollu mitlub billi hemm *il-weight limitation* skond ic CMR. L-artikolu 23 jiprovvdì li:

When, under the provisions of this convention, a carrier is liable for compensation in respect of total or partial loss of goods, such compensation shall be calculated by reference to the value of the goods at the time and place at which they were accepted for carriage.,

u li

Compensation shall not, however, exceed 25 francs per kilogram of gross weight short.

Il-limitazzjoni tapplika kemm fil-kaz ta' partial loss kif ukoll ta' total loss, izda l-artikolu 29 tac CMR Convention jeskludi l-limitazzjoni tar-responsabilita tal-carrier f'kazi fejn dan juri wilful misconduct jew *equivalent default*. Gie ritenut (ara Malcom Clark fuq riferit) li l-equivalent default must be weighed by the lex fori jigifieri l-ligi Maltija. Fil-kaz in ezami l-agir tal-konvenuti li jittrasportaw l-merkanzija in kwistjoni fuq *trailer* li ma kienx idoneju ghal *transport internazzjonali* u fit-tul jammonta ghal *equivalent default*. Ghalhekk id-difiza u limitazzjonijiet ta' responsabilita' tal-carrier ma japplikawx ghal kaz odjern. Konsegwentement l-ammont intier mitlub mill-atturi huwa dovut.

DECIZJONI
