Azzopardi, Paul S. Azzopardi, Mario W. La Pira u Joseph N. Fava:-

"This is an application for appeal in terms of Article 21 of the Malta Financial Services Authority Act - Chapter 330 of the Laws of Malta and Article 19 of the Investment Services Act - Chapter 370 of the Laws of Malta filed by the undersigned on behalf of Peter J. Azzopardi, Adrian P. Azzopardi, Paul S. Azzopardi, Mario W La Pira and Joseph N Fava as per attached mandate which is being marked "APP 1".

An appeal is being sought from the decision by the Malta Financial Services Authority ("MFSA") dated 20th October, 2004 to refuse an application for a license to trade potential clients' funds abroad on the spot FOREX ("FX") market dated 23rd January, 2004. The license was submitted by my clients Messrs. Peter J. Azzopardi, Adrian P. Azzopardi, Paul S. Azzopardi, Mario W. La Pira and Joseph N Fava. Copies of the letter of refusal of the 20th October, 2004 and of the letter of application are being attached herewith and marked "APP 2" and "APP 3".

Also attached are copies of all correspondence exchanged between the applicants or their legal counsel and the Malta Financial Services Authority, which copies are collectively marked "APP 4".

GROUND FOR REFUSAL

From an examination of the MFSA 's letter of the 20th October, 2004 and from a reading of all previous correspondence the grounds for refusal are:-

- a) Lack of MFSA's competence requirements on the part of the applicants or any of them
- b) FX Market Risk for Private Clients

GROUND FOR APPEAL

a) Lack of MFSA 's competence requirement on the part of the applicants or any of them

MFSA 's refusal to grant the license requested on the ground of lack of competence requirements constitutes an abuse of the authority's discretion and is manifestly unfair taking account of the local general situation.

Nowhere in MFSA 's correspondence can one find an adequate or objective motivation why the persons indicated as those who would be executing the trading activity, namely Peter J. Azzopardi and Paul S. Azzopardi do not comply with the competence requirements specific to the activity for which the license is being requested. No specific competence requirements for the activity for which the license is requested were ever stated and an examination of all relevant and related documentation provides no specific reference

The only attempt to provide a just justification appears in MFSA 's letter of the 18th June, 2004 where it was argued that the provision of advice, information or suggestions in relation to the EX trading activity and the act of putting such advice, information and suggestions into action, were absolutely distinct and hence the competence in one area does not imply competence in the other area. Apart from being highly futile, this justification did not possess those characteristics which could render it a fair, objective and valid ground for the refusal of the application on the ground of lack of competence.

*In the book **Judicial Review of Administrative Action**, the author Professor S.A. De Smith in page 253 (3rd Edition) amongst other things, states when writing about the Principles governing the exercise of discretionary powers:*

"The authority in which discretion is vested must act in good faith, must have regard to all relevant consideration and must not be swayed by irrelevant considerations, must not seek to promote purposes alien to the letter or

the spirit of the legislation that gives it power to act, and must not act arbitrarily or capriciously”.

Moreover the well known English Jurist Coke said that discretion was scire per legem quod sit justum; it was “a science or understanding to discern between falsity and truth, between right and wrong, between shadows and substance, between equity and colourable glosses and pretences and not to do according to their wills and private affections”.

These dictas help one to set out the rules of revision of any act of discretion such as that conferred to the MFSA by Article 6 of the Investment Services Act - Chapter 370 of the Laws of Malta.

When examining all the justifications and motivations advanced by the MFSA to give strength to their decision that, there existed lack of the competence requirements provided under the relevant legislation in the persons assigned with the duty to exercise the licensable activity, it should result that those safeguards so ingrained in our legal system to counter any misuse or misapplication of discretion, have been overstepped.

It will result that in the examination of all the facts provided to MFSA by the applicants with respect to this first ground of refusal, MFSA failed to take regard of all relevant considerations, the spirit of the legislation was not sought and furthermore the arguments used to back this ground for refusal lacked objectivity and were highly arbitrary and capricious.

Competence is assessed on qualification, training and work experience, in this order. These three criteria are however to be solely relevant and judged by reference to that type of market one intends to deal in. Judging these criteria by reference to markets which one does not intend to deal with would clearly mean that one is bringing into the exercise of his discretion irrelevant considerations.

The Spot FX market is distinct and separate from the derivatives market and therefore qualifications for the latter in no way apply to the former. Spot EX traders simply make decisions using technical factors and/or economic fundamentals. Mr. Peter Azzopardi, a UK graduate in Economics and Accountancy, therefore without doubt satisfies the ‘qualifications’ criteria.

On the other hand, a person can be ‘qualified’ without having a degree or diploma. Mr. Jay Meisler’s letter submitted with the applicants letter dated 27th April, 2004 confirms that Mr. Paul Azzopardi is qualified in providing trading signals. This was evident from the beginning, one hardly expects that a premiere FX site like Global-View.com would allow an ‘incompetent’ to manage a pay service on their esteemed site. The provision of consistently correct trading signals, coupled with a multi-defence risk management strategy, are the sole keys to successful FX trading.

Furthermore, ‘track-records’ can also serve as a ‘qualification’, especially if the results achieved are favourable. Whilst it is accepted that consistent profitable past performances can never be assessed as a guide to future achievements, the opposite is to be also more than true. Therefore, unprofitable past performances automatically signify ‘incompetence’. A verifiable accumulation of ‘pips’ attained for years 2002 and 2003 respectively would prove this. Regrettably, applicants offer for an audit, to be conducted by a prime audit firm, confirming net ‘pip’ acquisitions, together with their respective monetary value, under the protective umbrella of our highly effective risk management strategy, was dismissed as almost irrelevant by the Investment Services Unit.

The other two criteria namely training and experience, coupled with qualifications, are more than interlinked, in fact either cannot exist without the other. One cannot have work-experience without having undergone training. Furthermore, for one to undergo training means that one must have a knowledge of the subject matter. This

knowledge on the other hand cannot be simply restricted to information acquired from books, courses etc., but must be more profound, as we have demonstrated above, vis-à-vis positively consistent trading signals, coupled with our risk-management strategy.

In this respect, research conducted on the System in 1998, using data extrapolated from the 6 previous years, confirmed that the results yielded in 1998 were no fluke and that the system maintained a notable level of accuracy. This massive exercise served as a pseudo form of training for both Mr. Peter Azzopardi and Mr. Paul Azzopardi considering that the trading environment was an important factor of this research.

Work-experience can, on the other hand, be said to have initiated during 2001, precisely when Paul Azzopardi and Peter Azzopardi started posting trading recommendations on the Forex Forum of Global-View.com. Since 2002 Paul Azzopardi and Peter Azzopardi were invited to start a trading signal recommendation service, which is still active to date.

Furthermore it is not correct to argue as MFSA have done and continue to do, that in the absence of training/qualifications and in order to satisfy the competence test, one must prove undergoing relative work experience of a minimum number of years with an authorised financial institution. In the first instance there is an unlimited number of authorised financial institutions, but only a select few can be deemed to be specifically authoritative on the subject matter. In the second instance one must discern exactly what designation the word ‘traders implies. The majority of so called ‘traders’ simply follow “in-house” signals and can be simply termed as ‘deal-executors’. A sound and authoritative financial institution would have a team of ‘technical and economic’ advisors, whose sole purpose would be to generate trading signals. Traders and advisors work independently of each other, with the latter enjoying the only onerous role. It would therefore be correct in saying that traders working for a top notch financial institution cannot be

considered as competent to generate trading signals and this irrespective of the number of years in the institution's employment. On the other hand advisors, by MFSA's standards, would not qualify as being competent, primarily because they have never actually traded.

In the case of the applicants however MFSA was informed that both Mr. Peter Azzopardi and Mr. Paul Azzopardi had positive signalling skills and the art of actual trading, the latter coupled with an effective risk management strategy.

b) FX Market Risk for Private Claim

A logical construction of this ground for refusal as explained in the relevant letters constitutes an unofficial indicator, implying that applicant's proposal might be acceptable to the MFSA if catering solely for one particular type of client, namely the non-private client, vis a Professional Investor Fund, vis-à-vis a Collective Investment Scheme.

In the first instance if applicants are deemed to be competent enough to service non-private clients, simple reasoning implies that they are competent enough to service any type of client.

Secondly, the proceeds arising from potential clients will be traded abroad, in bulk and under one market. Nowhere has it been stated in applicant 's proposal that clients will participate vis the issue of shares or units of subscription, the opposite was in fact clearly outlined. Although pooling of contributions and profits and the principle of risk-spreading occurs, the main object of a Collective Investment Scheme, namely 'capital acquired by means of an offer of unit of subscription' does not occur. Therefore, applicant 's proposed fund cannot be deemed to be a Collective Investment Scheme, let alone a Professional Investor Fund.

It is understood that since the 'set-up' of the applicant's proposed scheme is not included anywhere in the MFSA 's structures, it either cannot exist and therefore cannot be

regulated or worst still, applicants are being manoeuvred into a position where they would have to accept modifications to their 'set-up' to fit the MFSA's structures.

The spirit of the relevant legislation namely the Investment Services Act is that of regulating the carrying on of investment business. It is not that of blocking an activity because of its intrinsic risks (as most if not all investment services would be blocked) but to regulate such activity so as not to be used to harm consumers or against their legitimate interests. In protecting all types of investors seeking financial assistance from third parties via a regulatory framework, it is not the MFSA's role to determine how much and where an investor may or may not invest. Hence it is not the MFSA's role to distinguish between investors. It is however, the MFSA's role to verify competence and moreover see that all systems and procedures to be adopted by the operator are well above board allowing no space for kick-backs, misrepresentation and fund misappropriation. This is contained in the applicants' letter of the 23 January, 2004, under headings, Business Continuity Scenario, Movement of Funds and Conduct of Business and most importantly Trading Philosophy (risk management strategies).

It was underlined in the applicant's proposal that not only would all potential investors be made aware that their capital outlay and projected profits would be at risk but that these same investors would have to signify their understanding of this scenario. It would therefore be Valletta Fund Management's role (as the designated back office administrators in applicant's proposal) to see that no misrepresentation occurs and that investors understand and signify acceptance of the risk involved.

In this respect it was remarked during formal meetings with MFSA officials that according to this experience a large number of investors simply sign on the dotted line and when things get bad, plead ignorance or illiteracy. Whilst accepting the fact that these type of investors do exist, the MFSA cannot in first instance withhold a venture simply to protect these people. After all there is in

existence an even larger number of potential investors who are literate even though these same investors do not possess any financial experience.

The speculative nature of FX Trading for laymen was never disputed. This is not so for experts, which my clients deem themselves to be and have provided proof of such expertise. For people like my clients trading the Spot EX market has to be considered as an investment. It has been proved that my clients know this particular market because they have achieved positive and consistent results over a number of years. Furthermore, the multi-point risk management strategy which was submitted by them with their initial proposal leaves absolutely no doubt that the speculative exposure was reduced to pure calculated risk.

FX trading, as an investment, can best be summed up via these new funds that are beginning to sprout up in the world of finance. Only recently Deutsche (Singapore) announced the launch of their first FX fund, please refer to:

<http://www.dollardex.com/sg/index.cfm?current=../contents/currencyfund&contentID=2065>

From this article, one should note, that when asked why this fund was being set-up, the Deutsche representative stated: "We see the Currency Fund as the first in a new asset class. It's an "active Alpha" (skill based) fund with low correlation to traditional asset classes like bonds and equities. So it is a good way for investors to diversify their risk. Also, many people may not know that the risk-return characteristics of professional currency management compared with equities and bonds are good. Historically, the Sharpe ratios have been as good if not higher than equities or bonds".

Notice the verbiage, 'new class asset', 'skill' and 'professional currency management'. Verbiage that holds weight with what the Sibylline project is about. Again it

must be reiterated that this market is not for the layman, but in the hands of a savvy operator, it can be lucrative.

Another point in question is why distinguish between the risk levels of various investment vehicles. It is quite true that some investments are riskier than others. It is also true that projected profits vary with the risk. Nobody can argue, this is natural, the higher the risk the greater the reward. On the other hand can one be absolutely sure that the lower the projected profit the lower would be the risk, even when one is guaranteed one's capital outlay? Would the capital really be guaranteed? Investments with banks for example are guaranteed up to the bank's authorised share capital or the bank's own property. Bond-holders are guaranteed via a company's assets but who is to tell one. if things go wrong, how much those assets will bring in during liquidation. It is contended that establishing a risk matrix is a thing of the past simply because since the abolition of the Gold Standard in 1971, long-term traders have seen their life become more difficult with advent of time. In this present day. it is not the markets themselves that primarily govern but events or phenomena such as globalisation. wars, terrorist acts, aids epidemics etc.

Some would even go so far as to put it down to an erratic US Government's massive trade deficit. In fact the great stock guru of our age, Warren E. Buffet, in his article to Fortune online, of October 3rd, 2003 saw fit that his company, Berkshire Hathaway, decided to liquidate stocks in favour of holding and redenominating foreign currencies. Berkshire Hathaway believed that this was the best form of risk management, for its clients, in these turbulent times. Once again lending more weight to this great myth that delving into Foreign Exchange is a highly risky business, at will be recalled, that Sibylline will, every 7 to 21 days, be practicing currency redenomination conversions as part of the risk management scenario).

The MFSA should therefore not concern itself with the risk matrix of the investment market per se. On the contrary the MFSA's roles are to determine that the promoters of

any particular venture are indeed competent to operate and that proper safeguards are in place which in no way allow any type of misconduct to the detriment of investors.

It was indicated by MFSA officials during the formal meetings held that Spot EX trading is not a regulated activity. It is felt that this statement applies solely to those investors who trade directly and the Inter-Bank FX and Forward markets. Otherwise Spot FX trading undertaken, to deal for third party accounts, for the purpose of investments, is in fact a regulated business. This, whether under Collective Investment Scheme or not.

In the light of the above consideration it is felt that the refusal on the part of MFSA to grant a licence based on the proposal submitted by my clients has wrongly applied the relevant provisions of the law regulating Investment Services and apart from being manifestly unfair constitutes an abuse of discretion. Consequently the Tribunal is respectfully requested to reverse the decision of the Malta Financial Services Authority and to grant a licence to the applicants under such conditions as the Tribunal may deem fit and appropriate and to order the Malta Financial Services Authority to issue the appropriate licence with all the appropriate and applicable conditions.”

Ir-Risposta ta' L-MFSA

2. Hi l-appell gie appuntat ghall-10 ta' Dicembru 2004 meta, bi qbil mal-partijiet, it-tribunal ikkonceda lill-MFSA zmien sal-5 ta' Jannar 2005 sabiex tintavola r-risposta tagħha. L-appell gie diferit ghall-10 ta' Jannar 2005.

3. Fir-risposta tagħha I-MFSA issottomettiet illi:

“Il-Malta Financial Services Authority (aktar il-quddiem imsejha I-MFSA jew I-Awtoritá) tikkontesta l-appell tal-kumpannija Sybelline Capital Management Co. Limited (aktar il-quddiem imsejjha “il-Kumpannija”) għal diversi ragunijiet, kemm ta' natura ta' eccezzjoni preliminari u

kemm eccezzjonijiet dwar il-mertu. Ghaldaqstant I-MFSA qegħda bir-rispett tissottometti r-ragunijiet tagħha għala dan I-appell odjern għandu jigi michud.

1. Eccezzjoni preliminari

Proceduralment I-appell għandu jigi michud stante li gie intavolat wara z-zmien perentorju ffissat fil-ligi għal dan I-iskop. Infatti I-artikolu 21 (11) tal-Malta Financial Services Authority Act (Chapter 330) tirrekjedi illi appell isir bil-miktub mhux aktar tard minn tletin jum wara li persuna tigi notifikata bid-decizjoni in kwistjoni. Id-decizjoni tal-MFSA ittieħdet fit-3 ta' Settembru 2004 (kopja annessa ma' I-appell) u intbagħtet lill-appellant bil-fax dak il-jum stess. Ma jidħirx illi hemm xi disputa dwar jekk din in-notifikazzjoni saritx jew le, anzi jirrizulta mill-atti presentati ma' I-appell illi I-promoturi tal-Kumpannija bhala reazjoni għal din id-decizjoni ghazlu li jergħu jiktbu lill-MFSA fit-28 ta' Settembru 2004. Permezz ta' din I-ittra (annessa ma' I-appell), il-promoturi tal-Kumpannija jikkonfermaw li kienu talbu laqgħa u din it-talba intlaqet u fil-fatt inzammet iaqgha fl-20 ta' Settembru 2004. Dawn ic-cirkostanzi ma jhassrux jew ma jwaqfux il-posizzjoni legali li tagħti zmien massimu ta' tletin jum sabiex jitressaq appell - u dan irid jew ma jridx ir-regolatur li ma jistax hlief japplika il-ligi kif isibha. Il-ligi, fl-artikolu 21 ga imsemmi, ma tagħti ebda diskrezzjoni li jittawwal dan iz-zmien li huwa ta' natura perentorja. L-appell mill-kumpannija tressaq hafna aktar tard milli huwa rikjest, u cioè fit-12 ta' Novembru, 2004, hafna aktar minn tletin jum wara d-data tad-decizjoni tat-3 ta' Settembru, 2004, anzi madwar tliet gimghat aktar tard mill-perjodu massimu stabbilit. It-tezi li qegħdin jittantaw I-appellant li d-decizjoni tal-MFSA ttieħdet fl-20 ta' Ottubru 2004, minflok fit-3 ta' Settembru 2004, bir-rispett hija infodata u ntiza biss sabiex artificjalment jitwal iz-zmien li fih kellhom jitfghu I-appell.

Jirrizulta car mill-kontenut tagħha illi I-ittra tal-MFSA tal-20 ta' Ottubru 2004 ma kinetx tammonha għal decizjoni, imma kienet ittra sussegwenti għad-decizjoni digħi meħuda. L-ittra konfermat u re-iterat id-decizjoni li kienet ittieħdet xi

zmien qabel, fit-3 ta' Settembru 2004 u fil-fatt tagħmel referenza esplicita għaliha.

Għal dawn ir-ragunijiet, I-MFSA tissottometti bir-rispett li dan I-appell huwa null u bla effett u għandu jigi michud.

2. Eccezzjonijiet fil-mertu

F'din il-parti, kif mitlub mit-Tribunal fl-ewwel seduta tieghu f'din id-disputa, I-MFSA sejra tindika wkoll I-eccezzjonijiet tagħha dwar il-mertu ta' I-appeli imressaq mill-Kumpannija. Dan naturalment qed isir mingħajr pregudizzju ghall-eccezzjoni preliminari ga esposta.

Fil-fehma tal-MFSA, I-appellant naqas illi b' xi mod juri b' liema mod I-MFSA naqset mill-obbligi tagħha li timxi bil-bwona fede jew b' xi mod iehor abbuzat mid-diskrezzjoni li tagħtiha I-ligi. Fil-kuntest ta' din il-kawza partikolari, il-ligijiet pertinenti, fi ftit kliem, jippermettu appell meta persuna thoss li decizjoni tal-MFSA tikkostitwixxi abbuz ta' diskrezzjoni li tkun manifestament ingusta. Izda I-ligi tghid ukoll illi d-diskrezzjoni ta' I-awtorità kompetenti ma tistax, ladarba tkun giet ezercitata b' mod xieraq, tigi mistharrga mit-Tribunal.

L-MFSA hija tal-fehma illi t-talba kontenuta fl-appell odjern hija biss re-statement li I-promoturi tal-kumpanija ma jaqblux mal-konkluzjonijiet ta' I-Awtorità. Dan għandhom dritt kollu li jagħmlu, cioè li ma jaqblux, imma din wahedha ma tistax tikkostitwixxi bazi sufficienti sabiex fuqha tibni appell skond il-ligi. Il-ligi tirrikjedi provi cari mill-appellant ta' xi forma ta' abbuz jew ingustizzja manifesta da parti tal-MFSA. Din il-prova ma tezistix. Apparti d-dokumenti ga annessi u li għad iridu jigu ezebiti skond il-htiega tal-prova matul is-seduti, I-MFSA thoss li hi f' posizzjoni li turi lit-Tribunal I-liter kollu tal-process estensiv u professjonal li bih giet trattata t-talba għal-licenzja mill-kumpanija. L-MFSA lesta turi b' liema mod serju studjat bir-reqqa t-talba tal-promoturi tal-Kumpanija, process li kien jinkludi korrispondenza estensiva u diversi laqghat, fejn dejjem fittxet li timxi in bwona fede u fejn zammet bhala principju

baziku li hi qegħda hemm primarjament sabiex taqdi interassi pubblici u mhux privati.

L-MFSA ma thossx li l-appellanti ssodisfaw il-parametri li tirrikjedi l-ligi u fil-fehma tagħha l-appell għandu jigi michud anke fuq il-mertu ghax ma giex indikat liema cirkostanza tikkostitwixxi mala fede jew nuqqas ta' bwona fede u lanqas jista' jidentifika fejn setghet tkun hatja ta' "misuse or misapplication of discretion" (pagna tnejn ta' l-appell).

L-Awtorità studjat in-nota ta' l-appell tal-kumpannija u thoss li għandha tindika xi punti fejn jidher li l-appell huwa mibni fuq premessi zbaljati. Sejrin jissemmgħu whud minn dawn:

- (a) *L-appell jissuggerixxi li ghax xi hadd forsi mar tajjeb f' xi intrapriza personali li teffettwa biss flusu, mela dan issa bil-fors tajjeb sabiex tafdalu flus ta' terzi (pagna 3 ta' l-appell) - Din premessa zbaljata u insostenibbli ghax il-protezzjoni tat-terzi tinbena fuq standards oghla minn hekk;*
- (b) *L-appell jissuggerixxi li ghax promotur jigi accettat minn xi cirklu kummercjali (eg Global-View.com, f' pagna 2 ta' l-appell), mela għandu jkun ukoll awtomatikament accettabbli minn regolatur - Din premessa ohra zbaljata ghax regolatur ma jimxiex biss fuq kriterji ta' kif jista' jaħsibha xi operatur kummercjali privat;*
- (c) *L-appell jissuggerixxi illi ghax is-Sur Peter Azzopardi gradwat fl-accountancy u economics allura hu "without doubt satisfies the qualifications criteria" (pagna 2 ta' l-appell) - Din ukoll premessa zbaljata u inaccettabbli ghax il-fit and proper test hija rikuesta għal kulhadd f' dan is-settur u l-ligi ma tagħti ebda trattament specjali lil ebda kategorija u l-ligi ma tippresumi xejn.*
- (d) *L-appell jissuggerixxi illi track record fi hwejjeg finanzjarji kumplessi ta' biss tliet snin (pagna 3 ta' l-appell tirreferi għal work experience li nbeda fl-2001) huwa bizżejjed sabiex tistabilixxi track record għal skop ta'*

licenzja formali taht I-Investment Services Act (Kap 370) u ligijiet ohra pertinenti - Din pre messa hazina u insufficjenti.

(e) *L-appell jissuggerixxi (pagna tlieta) illi* “In the first instance if applicants are deemed to be competent enough to service non-private clients, simple reasoning implies that they are competent enough to service any type of client”, *u aktar tard f’ pagna 4, jkompli* “it is not the MFSA’s role to distinguish between investors”, *u anke*, “the MFSA cannot in the first instance withhold a venture simply to protect these people”, *u* “why distinguish between the risk levels of various investment vehicles?”. *Dawn huma stqarrijiet sorprendenti li ma jirriflettux il-principji fundamentali tar-regolamentazzjoni tas-servizzi finanzjarji. Infatti hemm hafna postijiet fejn il-ligijiet relevanti jaghmlu distinzjonijiet importanti bejn private investors u non-private investors u dan sabiex aktar jittiehdu mizuri ghall-protezzjoni tal-private investors. Dawn huma I-kategorija ta’ investituri komuni u I-aktar vulnerabbi li ma jgawdux minn xi patrimonju kbir jew li ma jkollhomx tahrig jew knowledge sofistikat u li forsi aktar facli jaqaw f’ ingann jew jitilfu is-savings taghhom. U ma hemmx dubju li certi investment vehicles huma aktar riskuzi minn ohrain, kuntrarjament ghall-istqarrija fl-appell.*

Bir-rispett dawn il-punti u stqarrijiet ta’ I-appellant i juru kemm I-MFSA u I-promoturi tal-Kumpannija jidhru li għandhom valuri differenti hafna u jigu minn kulturi regolatorji differenti sew. Dawn jistghu wkoll juru illi I-promoturi ma fehmux bizzejjed certi principji bazici għalfejn wara kollox hawn ligijiet finanzjarji u għalfejn hawn regolaturi finanzjarji, u għalfejn I-MFSA waslet ghall-konluzzjoni kif għamiet dwar it-talba tagħhom.

Minkejja dawn il-konsiderazzjonijiet kollha, il-promoturi jistghu u għandhom dritt ma jaqblux u jzommu fehma diversa, imma dan ma jfissirx u ma jimplikax abbuz jew malafede da parti ta’ I-Awtorità, allegazzjoni li ma giet b’ebda mod ippruvata.

Għaldaqstant, għar-ragunijiet suesposti, I-MFSA titlob li dan it-Tribunal jichad I-appell.”

Is-Seduti Mizmuma

4. Illi fis-seduta ta' l-10 ta' Jannar 2005 it-tribunal ordna li qabel xejn tigi trattata u deciza l-eccezzjoni preliminari tal-MFSA. F' din is-seduta l-partijiet qablu illi d-dokumenti sottomessi mill-appellanti ma l-ittra tagħhom tat-12 ta' Novembru 2004 huma kopji fidili ta' l-original u li t-tribunal jista' jistrieh fuqhom bhala dokumenti awtentici meta' jasal biex jiddeciedi l-appell. L-appell gie differit sabiex jixhdu Dr André Camilleri u Ms Christina Parlato Trigona ghall-21 ta' Jannar 2005.

5. Fis-seduta tal-21 ta' Jannar 2005 xehed Dr André Camilleri. Il-partijiet qablu illi ma kienx hemm applikazzjoni formali biex tinhareg licenza għan-negozju mertu ta' dan l-appell; bl-appellanti jsostnu li dan sar bi qbil ma' l-MFSA sabiex fi stadju preliminari, fost affarrijiet ohra, ma jkunx mehtieg li jsiru hlasijiet. Dr Valletta, ghall-appellanti, talab illi jigu esibiti l-minuti tas-Supervisory Council tal-MFSA relattivi għal-laqghat li wasslu ghall-ittra tat-3 ta' Settembru 2004 u laqghat sussegwenti, dejjem in konnessjoni mal-proposta *de quo*. Dr David Fabri ghall-MFSA ma oggezzjonax. It-Tribunal laqa' t-talba u ordna li għas-seduta li jmiss għandhom jigu prodotti l-minuti. L-appell gie differit ghall-kontinwazzjoni ghall-4 ta' Frar 2005.

6. Fis-seduta ta' l-4 ta' Frar 2005 xehed Robert Higgins, Segretaiju tas-Supervisory Council, prodott miz-zewg partijiet. Il-partijiet iddikjaraw li m'ghandhomx aktar provi dwar l-ewwel eccezzjoni sollevata mill-MFSA. L-appell gie differit għas-sentenza dwar din l-eccezzjoni kif ukoll dwar il-punt sollevat mit-tribunal dwar jekk huwiex kompetenti illi jezamina decizjoni tal-MFSA f' kwistjoni ta' rikuesta għal licenza meta ma kienx hemm applikazzjoni formali. Il-partijiet gew mogħtija l-fakulta li jippresentaw sottomissjonijiet bil-miktub sat-18 ta' Frar 2005 u li jirreplikaw bil-miktub sal-25 ta' Frar 2005. Fil-fatt kemm is-sottomissjonijiet kif ukoll ir-repliki gew ipprezentati.

II-Fatti

7. Illi l-fatti saljenti ghal din id-decizjoni li rrizultaw waqt it-trattazzjoni ta' dan l-appell huma s-segwenti:

- (1) Illi permezz ta' e-mail datata 20 ta' Ottubru 2003 Robert Higgins (*Manager - Investment Services Unit - MFSA*) qal lill-appellant Mario W. Lapira:

"Reference is made to our preliminary meetings held on 13th June and 5th August 2003.

Should you still be interested in applying for an investment services licence, you should first submit a comprehensive written description of the proposed activities (as requested in our meeting of 5th August) before proceeding further. The proposal should include details of how the company will be structured and details of the persons who will be involved in providing investment activities and how they satisfy the competence requirements. (i) Ghamlet resumé ta' I-attivita kif proposta mill-appellanti bl-ittra tagħhom tat-23 ta' Jannar 2004 kif fehemitha I-MFSA u talbet numru ta' kjarifik.

(ii) Qalet li jekk I-MFSA fehmet il-proposta ta' I-appellanti sewwa, jekk I-attivita kienet se tkun wahda *for investment purposes rather than for speculative purposes* u suggett li jigu kkjarifikati I-punti sollevati mill-MFSA allura *it appears that the proposed activity would be licensable under the Investment Services Act, 1994.*

(iii) Ziedet tghid li “*the main issues which arise with respect to the proposed activities*” kienu, fost ohrajn, illi:

“in view that trading on the forex market carries a very high risk, these type of services would need to be limited solely to Non-Private Clients (as defined in the Glossary of Terms in the Investment Services Guidelines) rather than the retail public”,

u

“the Authority would need to be satisfied of the fitness and properness of the individuals involved”

haga li dahlet f' certu dettal aktar I-isfel fl-ittra fejn tat x' tifhem li min dak li kien irrizulta lill-MFSA sa dakinhar I-appellanti ma kellhomx il-kwalifikasi necessarji.

(iv) Ghalqet I-ittra billi qalet:

“We hope you will find our initial feedback useful. Please feel free to correct or expand on our understanding of your proposal as you consider appropriate.”

(4) L-appellanti wiegbu din l-ittra ta' Marianne Scicluna permezz ta' ittra datata 30 t' April, 2004 fejn huma kkorregew numru ta' punti li I-MFSA kienet fehemet hazin, ikkjarifikaw il-punti li gew mitluba li jikkjarifikaw u trattaw numru ta' punti sollevati minn Marianne Scicluna fl-ittra tagħha tas-17 ta' Marzu 2004 fosthom:-

- Il-ghaliex l-attività li kienu qegħdin jipproponu m' għandix tkun ristretta għal *non-private clients*; u
- Li huma għandhom l-kwalifikasi necessarji sabiex jissodisfaw il-fit and proper test rikjesta mill-MFSA meta toħrog licenzja taht l-Investment Services Act, 1994. Huma kkonkludew l-ittra tagħhom billi qalu:

"the undersigned deem that we have effectively corrected and expanded on your reply To this effect we feel that we have thoroughly addressed your queries and look forward to having our proposed activity sanctioned and eventually brought to fruition."

(5) Marianne Scicluna wiegħet l-ittra ta' l-appellanti tat-30 ta' April, 2004 permezz ta' ittra datata 18 ta' Gunju 2004 fejn principalment ittrattat iz-zewġ punti ta' *Private vs. Non-Private Clients* u *l-fit and proper test*.

Dwar *l-Private vs. Non-Private Clients* hija sostniet li persuni li jinvestu f' attivita bhal dik ikkrontempata mill-appellanti

"... need to possess the experience, knowledge and expertise and properly assess the inherent risks and also (be) able to withstand potentially substantial losses ... We re-iterate our position that these type of services would need to be limited solely to Non-Private Customers. We consider this to be an issue of investor protection for the retail public".

Dwar il-kwistjoni tal-fit and proper test hija regħhet sostniet illi l-appellanti m' għandhomx il-kwalifikli necessarji u fil-fatt għalqet l-ittra tagħha billi qalet:

"In the absence, that the Company being able to demonstrate to the MFSA that it adequately satisfies the competence criteria on the basis of the issues described earlier-namely, qualification(s) which is/are directly relevant to trading spot forex coupled with hands-on experience or alternatively relevant work experience with a regulated entity involved on the proposed activites) - we regret to inform you that the proposed activity, as is, cannot be sanctioned to be provided to third parties"

(6) Ghal din l-ittra rrisponda ghall-appellanti l-Avukat Dottor Pio Valletta. Dan permezz ta' ittra datata 29 ta' Lulju, 2004 fejn wara li kkjarifika numru ta' punti msemmija fl-ittra ta' Marianne Scicluna tat-18 ta' Gunju 2004 ta r-ragunijet il-ghaliex klijenti privati m' għandhomx jigu eskluzi mill-attivita proposta mill-klijenti tieghu u sostna li l-klijenti tieghu jissodisfaw il-fit and proper test. Huwa kkonkluda l-ittra tieghu billi qal:

"In the light of the above clarifications, responses and considerations it is felt that the proposed application fully and objectively satisfies all the statutory requirements set out in the applicable legislation and that consequently the appropriate license setting out the conditions which MFSA would consider, in its absolute statutorily granted discretion, as adequate and appropriate to further safeguard the interest of third parties, should be granted to the company forthwith.

We are prepared to discuss any points which you feel require any further discussion and for this purpose we are willing to meet you at your earliest convenience should such a need arise".

L-ittra giet ikkupjata, fost ohrajn, lill-Professur Joseph Bannister - Chairman tal-Bord tal-Gvernaturi tal-MFSA.

(7) Fil-11 ta' Awissu 2004 l-avukat ta' l-appellanti bagħat fax lil Professur Bannister fejn wara li gharrfu illi hu ma kien ircieva l-ebda risposta mill-MFSA ghall-ittra tieghu

tad-29 ta' Lulju, 2004, talbu biex jintervjeni bl-iskop li I-MFSA twiegbu.

(8) Fl-24 ta' Awissu 2004 l-avukat ta' l-appellanti baghat fax ohra lill-Professur Bannister fejn, rega' gharrfu li I-MFSA kienet ghadha ma wegbitx l-ittra tieghu tad-29 ta' Lulju 2004, li d-dewmien kien ta' pregudizzju ghall-klijenti tieghu u li l-intervent tieghu, cioé tal-Professur Bannister, kien necessarju sabiex tigi evitata azzjoni legali u talba sabiex jintervjeni l-Ministru responsabbi.

(9) Il-Professur Bannister wiegeb fil-25 ta' Awissu, 2004 permezz ta' fax u posta normali fejn għarrraf lill-avukat ta' l-appellanti illi kien f' posizzjoni jikkonferma illi "*the matter is being processed with the diligence and the procedures envisaged in the relevant legislation.*"

(10) Fl-istess gurnata, cioé fil-25 ta' Awissu 2004, Cristina Parlato Trigona (Id-Direttur - *Investment Services Unit*) kitbet lill-avukat ta' l-appellanti permezz ta' fax u posta normali fejn għarrfitu:-

"Please note that the MFSA has been considering the proposal and the explanations you have provided in your various communications including your detailed letter of 29th July. The matter in question has now been analysed by my Unit and has now moved to the next stage, namely being referred to the Supervisory Council of the MFSA. You should know that the Supervisory Council, amongst other things, is the MFSA organ which is responsible for the approval of and for the issuing of licences and other authorisations in the financial services sector.

We are sure you will also appreciate that in order for the matter to be given the attention it deserves and be adequately considered internally, there are certain internal processes which may take some time. Despite that no formal application for a licence has ever been submitted in terms of the relevant Schedules of the Investment Services Act, 1994, the MFSA has always been ready to consider the information provided at length in order to assist Messrs. Azzopardi and La Pira.

Lastly, kindly note that we shall revert with the position taken by the Supervisory Council at the earliest opportunity.”

(11) Dr. Valletta wiegeb lil Cristina Parlato Trigona permezz ta' ittra datata 27 ta' Awissu, 2004 li baghat via fax u bil-posta normali. Hu qal, *inter alia*:

“I note with satisfaction that my client’s proposal has now, been referred to the Supervisory Council, which as you explain is the organ responsible for the approval of and for the issuing of licences and other authorisations in the financial services sector.

I do appreciate that applications such as the one my clients have put forward require time, care and attention and I am confident that the time your unit has taken to examine my clients’ application has enabled your unit to understand that my clients are proposing an operation which fully conforms to the set statutory parameters and meets all the objective requirements.

In your letter however, you do refer to the fact that, no formal application for a licence has been submitted by my clients in terms of the relevant schedules of the Investment Services Guidelines nor any application fee has been paid for a license under the Investment Services Act, 1994. May I refer you to an e-mail received by my clients from Mr. Robert Higgins - Manager Investment Services Unit dated the 20th October, 2003 (copy is being herewith attached for ease of reference) in which Mr. Higgins suggests that my clients should first submit a comprehensive written description of the proposed activities before proceeding further.

Kindly indicate at your earliest whether your reference at this juncture, to my clients’ failure to submit a formal application and to effect payment of the licence fees signifies that my clients need to file such a formal application and pay the prescribed fee for their application to proceed further and receive proper consideration. If

such is the case my clients are willing to file the formal application and pay the prescribed fees forthwith.

I thank you for your attention and await with eagerness your comments and/or responses in respect of the matter raised in the preceding paragraph of this letter".

(12) Cristina Parlato Trigona wiegbet permezz ta' ittra datata 30 ta' Awissu 2004 li hija baghtet permezz ta' fax u bil-posta normali. Hija qalet:

"We acknowledge that - as is standard practice with new proposals - your clients were as a first step requested to submit a written proposal describing their business plans as well as details regarding the individuals to be involved in providing the services in question. The main reason for this was to enable us to consider the proposed business plan in order to identify the regulatory implications and whether 'in principle', this would qualify for licensing under the Investment Services Act, 1994, bearing in mind the 'fit and proper' criteria which need to be satisfied. This approach was adopted in order to assist your clients in avoiding the risk of unnecessarily having to incur costs and time in submitting all the required application documents.

The fact that your clients have to date not yet submitted a formal application, has in no manner impinged on the thoroughness with which the MFSA has considered their proposal. Although your clients are free to submit such application at any time, at this stage, this will not affect the Authority's consideration of their proposal which is being given the attention it deserves.

As indicated in our letter dated 25th August, 2004, we shall revert with the position taken by the Supervisory Council at the earliest opportunity."

(13) Is-Supervisory Council ikkunsidra l-kwistjoni fil-laqgha ta' I-1 ta' Settembru 2004. Il-minuta relattiva tghid:

"Ms. Parlato Trigona referred to her memorandum, dated 16 August 2004, regarding a proposal for an investment services licence by Sibylline Capital Management Co. Ltd. The purpose of the company would be to engage in spot Forex day trading for retail investors on a discretionary basis.

The main issue arising relates to the satisfaction of the competence criteria. It was explained that ISU believes that the promoters who would be involved in the Forex trading do not satisfy the standard fit and proper criteria on the basis of lack of hands-on relevant work experience with a regulated entity, the absence of specialised training in relation to their proposed activity, as well as a lack of relevant qualifications in the field of investment services/financial markets.

Following a discussion, Council members resolved to agree, as recommended, that the promoters be informed that the Authority remains of the view that the promoters do not satisfy the required competence criteria for licensing under the ISA. It was also agreed that the Legal Unit would be requested to vet the communication to the promoters in this regard prior dispatch."

(14) Fit-3 ta' Settembru, 2004, l-Avukat Dr. André Camilleri, Direttur Generali ta' l-MFSA, kiteb lill-appellanti fejn qalilhom li l-proposta taghhom giet imressqa mill-*Investment Services Unit lis-Supervisory Council* u cioé "*the organ responsible for taking regulatory decisions in respect of licensable activities*" u liema Kunsill ikkunsidra din il-proposta. Hu temm l-ittra tieghu billi qal:

"On the basis of the information provided, the Supervisory Council does not find sufficient basis on which it can consider the individuals to be carrying out the Company's licensable activity, to satisfy the competence criterion - an essential element of the 'fit and proper test' which needs to be satisfied for licensing under the Investment Services Act, 1994 ("ISA"). Such a position is based on the inability to demonstrate the possession of relevant and adequate work experience obtained over a number of years with a

regulated financial services entity, combined with the absence of appropriate qualifications on investment services or financial markets, as well as the absence of specialised training in the proposed activity.

For the sake of accuracy and completeness and as a secondary issue, given the exchange of previous correspondence wherein the issue of the nature of the Company's proposed licensable activity was raised, we wish to emphasise that irrespective of the nature of licence applied for in terms of the ISA, the same competence requirements apply.

Please be guided accordingly."

(15) L-Appellanti Peter J. Azzopardi u Mario W. La Pira
kitbu ittra lill-Avukat Dr. André Camilleri datata 28 ta'
Settembru 2004 liema, ittra bdewha kif gej:

"In the first instance we would sincerely like to thank you for allowing time to meet us and discuss our proposed 'Sibylline' project this 20th September.

To our regret it emerged that our previous correspondence with the MFSA was not evaluated personally by yourself. On the other hand, we appreciate that you, as Director General of the Supervisory Council have a tight schedule and must rely on evaluations passed on to you by the Investment Services Unit. Nonetheless, our distinct impression was that the final recommendation passed on to you was not comprehensive on the subject matter and leaned towards an outright refusal.

You have been portrayed to us as being a man of honour, of undoubted integrity and enjoying an open and analytical mind. We were therefore glad to hear that all our previous submissions would now be thoroughly examined by yourself. This with the main view of setting up another meeting and properly tackling the MFSA's Supervisory concerns, if any are in fact encountered after evaluation of all our submissions to date.

During our meeting of the 20th September the following points were raised by yourself namely: competence, end-user profile, Spot Forex (FX) market risk and we were asked to revert, albeit in concise form on same. Having put to paper all that had to be said in our previous submissions, these fresh comments are simply meant to be complimentary.”

Huma komplew l-ittra taghhom billi:

- (i) Regghu ttrattaw il-kwistjoni tal-kwalifikasi sabiex iwettqu l-progett taghhom.
- (ii) Regghu ttrattaw il-kwistjoni tal-Private vs. Non-Private Client. F' dan ir-rigward bdew billi qalu “*It further emerged that although your letter of the 3rd September dealt solely with the “competence issue*”;
- (iii) Ittrattaw il-punt dwar l-“FX Market Risk”; u
- (iv) Ikkonkludew l-ittra b'dan il-kliem:

“Whilst thanking you again for taking time in allowing us to present our case, we would kindly request your good-self after having gone through our full correspondence, to set up a secondary meeting in order that we may iron out each and every outstanding problem”.

(16) F' seduta tas-Supervisory Council mizmuma fit-28 ta' Settembru 2004 gie registrat is-segwenti:

“Ms. Parlato Trigona confirmed that a meeting was held with the promoters on their request following their receipt of the Supervisory Council’s decision on the matter. The promoters intend submitting representations.”

(17) FI-20 ta' Ottubru 2004 Dr. André Camilleri kiteb lill-appellanti “Mr. P. Azzopardi/Mr. M. Lapira” fejn irrefera ghall-ittra taghhom tat-28 ta' Settembru 2004. Hu beda din l-ittra billi qal:

"Firstly, I would like to clarify that the Supervisory Council has access to all information and correspondence in support of the recommendations made by regulatory units. I can assure you that the Supervisory Council takes its decisions objectively and based on comprehensive assessments as was the case in respect of the Company.

More specifically, we have gone through your comments regarding competence, the end-user profile and the spot forex market risk's",

u kkonkludiha hekk:

"We have thoroughly considered your further submissions which in our view do not include new elements which alter the basis upon which the Supervisory Council resolved to take the stance expressed in our letter of 3rd September 2004. In the circumstances, additional meetings will serve no purpose unless substantial new elements regarding the applicants are presented."

(18) Fis-seduta tas-Supervisory Council tas-27 ta' Ottubru 2004 Ms Parlato Trigona infurmat il-membri li l-appellanti kienu qeghdin jikkonsidraw li jissottomettu applikazzjoni formali ghal licenza taht l-Investment Services Act. Is-Supervisory Council ddecieda illi

"... should the promoters of Sibylline submit a formal application, the ISU should take into consideration the very extensive review process which it had conducted in the pre-application stage, concerning the competence of the promoters and regulatory requirements of the proposed activity. It was also agreed that in replying to the promoters in respect of such application, reference could be made to previous correspondence exchanged with the promoters during the pre-application stage."

(19) Fis-seduta tas-Supervisory Council ta' l-10 ta' Novembru 2004 Ms Parlato Trigona infurmat lill-membri li l-appellanti kienu għadhom ma issottomettewx applikazzjoni formali.

(20) Fis-seduta tas-Supervisory Council ta' l-14 ta' Dicembru 2004 Ms Parlato Trigona infurmat il-membri illi promoturi ta' Sibylline kienu intavolaw l-appell odjern.

L-artikolu 8 jitkellem dwar x' għandha tagħmel l-awtorità kompetenti f' kaz li tkun se tiproponi cahda, tibdil, thassir jew sospensjoni ta' licenza.

16. Għalhekk f' kaz li l-awtorità kompetenti, wara li tkun segwit il-process stabbilit fl-artikolu 8 (1) u (2), tinforma - a tenur ta' l-artikolu 8 (3) - lill-applikant li t-talba tieghu għal hrug ta' licenza giet michuda, jiskatta d-dritt tiegti li jintavola appell lil dan it-tribunal taht l-artikolu 19 (2) (d) citat aktar il fuq.

17. Illi l-artikolu 8 (3) hu intrinsikament marbut -

mas-subartikoli (1) u (2) ta' l-artikolu 8, li kif diga ingħad, jistabillixxu l-procedura li għadha ssegwi l-awtorità kompetenti f' kaz li tkun se tiproponi cahda, tibdil, thassir jew sospensjoni ta' licenzja u liema subartikoli huma intrinsikament marbuta

ma' l-artikolu 6, li jitkellem dwar is-setgha ta' l-awtorità kompetenti li tichad jew tagħti licenzja u liema artikolu 6 huwa intrinsikament marbut

ma' l-artikolu 5 li jittratta dwar applikazzjonijiet għal licenza, il-forma ta' dawn l-applikazzjonijiet u x' għandu jkun fihom.

18. L-gheruq ta' l-artikolu 19 (2) (d), li fuqu huwa msejjes dan l-appell, għalhekk jibdew b' applikazzjoni kif specifikata fl-artikolu 5. Logikament

ghalhekk isegwi li fl-assenza ta' applikazzjoni kif ikkонтemplata fl-artikolu 5 - kif inhu l-kaz in ezami - dan it-tribunal ma hux kompetenti li jiehu konjizzjoni ta' appell intavolat a bazi ta' l-artikolu 19 (2) (d).

19. Is-sitwazzjonijiet imsemmija fil-kumplament ta' l-artikolu 19 (2) - cioè 19 (2) (a), 19 (2) (b), 19 (2) (c), 19 (2) (e), 19 (2) (f), 19 (2) (g) u 19 (2) (h) - jikkontemplaw dritt ta' appell lil dan it-tribunal li m' għandhom x' jaqsmu xejn ma cahda ta' licenza kif lamentata mill-appellanti fl-appell *de quo u għalhekk huma għal kollex irrilevanti għal dan il-kaz.* Għar-rigward ta' l-artikolu 19 (2) (b) li jikkontempla dritt ta' appell lil dan it-tribunal "*with respect to ... any failure to inform an applicant within the terms of article 6 (6)*", huwa sinifikanti il-kliegħ uzat fl-artikolu 6 (6) li jghid

"Within six months from the date of the submission of a properly completed application form together with the requisite documentation, the competent authority shall inform an applicant of its decision whether or not to grant a licence".

L-enfasi għal "a properly completed application" f' din id-disposizzjoni tari l-importanza li l-legislatur jaġhti lill-applikazzjoni kif ikkонтemplata fl-artikolu 5 u tkompli ssahħħah il-fehma tat-tribunal li l-limitazzjoni ta' l-artikolu 19 (2) (d), bir-referenza ghall-artikolu 8 (3), tfisser biss li appell minn cahda ghall-hrug ta' licenza taht l-artikolu 19 (2) (d) tista' ssir biss meta jkun hemm applikazzjoni skond l-artikolu 5, dan b' rizultat tar-rabta diretta u kontinwa li hemm bejn l-artikoli 5, 6, 8 u 19 (2) (d) tal-Kap. 370.

20. It-tribunal jifhem illi l-MFSA tigi frekwentement avvicinata minn persuni u kumpanniji, kemm Maltin kif ukoll barranin, li jkunu interessati fil-hrug ta' licenzi f' xi qasam (per esempju bankarju, ta' assikurazzjoni, ta' servizz ta' investimenti ecc) li jaqa' taht il-kompetenza tagħha u li hija tibda tiffiltra t-talba mill-bidu nett qabel ma ssir d-debita applikazzjoni. Dan sabiex f' kaz fejn jirrizulta mill-ewwel li mhux possibbli li tinhareg il-licenza rikjest, kemm l-MFSA kif ukoll min ikun avvicinha

ma jahlux il-hin ta' xulxin u fil-kaz ta' min javvicinha dan ma jonfoqx flus ghalxejn, u dan peress illi fir-rigward ta' licenzi ghal negozju ta' certu entità hemm preskritti drittijiet konsiderevoli li jridu jithallsu ma' l-applikazzjoni.

Dan il-process ‘informali’, anki meta jsir bi qbil espress bejn ‘l-applikant’ u I-MFSA, ma jaghtix dritt lill-‘applikant’ li jirrikorri ghal dan it-tribunal, f’ kaz li I-MFSA tinfurmah illi m’ hijiex disposta li tohrog il-licenza rikiesta, ghaliex mhuwiex lecitu li dan it-tribunal jestendi dak li hemm ikkontemplat fl-artikolu 19 (2) (d), li espressament jillimita il-kompetenza tieghu ghal cahda ta’ licenza taht l-artikolu 8 (3) li hu kkatenat, kif spjegat aktar li fuq, ma’ l-applikazzjoni kif ikkontemplata u deskritta b’ mod tassattiv fl-artikolu 5.

21. Illi fis-sottomissjonijiet taghhom l-appellanti jaghmlu riferenza:

- (a) Ghall-mistoqsija tac-Chairman ta’ dan it-tribunal lil Dr André Camilleri ta’ x’ kien jigri kieku fl-ittra tat-3 ta’ Settembru 2004 I-MFSA accettat it-talba ta’ l-appellanti ghall-hrug ta’ licenza; u
- (b) Ghar-risposta ta’ Dr Camilleri ghal din id-domanda: “Il-promoturi kienu jikkonkretizzawha f’ applikazzjoni, konna niprocessawha u nohorgu l-licenza relattiva”.

Minn din id-domanda u risposta l-appellanti jikkonkludu illi t-twegiba “... hija indikattiva ta’ kemm l-applikazzjoni hija element purament formali fil-process kollu ghall-hrug ta’ licenzja ...” u per konsegwenza cahda ta’ talba informali ghall-hrug ta’ licenzja da parti ta’ I-MFSA ma tipprekludix appell lil dan it-tribunal a bazi ta’ l-art. 19 (2) (d).

It-tribunal ma jikkondividix dan ir-ragunament, mhux biss ghaliex hu marbut b’ dak li espressament tiddisponi l-ligi fl-imsemmija artikoli 5, 6, 8 u 19 (2) (d) tal-Kap. 370 kif spjegat aktar il fuq, izda wkoll ghaliex il-kelma ‘tipprocessa’ tippresumi wkoll il-possibilità reali li jinqala’ xi intopp iehor li jwassal ghac-cahda tal-licenza, e.z. f’ kaz li fl-ghoti ta’ licenza I-MFSA tissoggetta l-licenza - kif

ghandha dritt li tagħmel a tenur ta' l-artikolu 6 (2) (a) - għal xi kondizzjoni u l-appellant ma jaqblux ma tali kondizzjoni.

22. Naturalment dan kollu ma jtellef xejn mid-dritt ta' 'applikant informali' li jkun rinfaccat b' cahda, bhal fil-kaz *de quo*, milli japplika għal licenza skond kif mahsub fl-artikolu 5 tal-Kap. 370 u l-applikazzjoni tieghu tigi pprocessata mill-MFSA skond il-ligi.

L-Eccezzjoni Preliminari ta' l-MFSA

23. Illi l-inkompetenza ta'dan it-tribunal tipprekludih milli jezamina u jiddeciedi anki l-eccezzjoni preliminari tal-MFSA u cioè jekk l-appell giex intavolat fiz-zmien ta' 30 gurnata preskritt mill-artikolu 21 (11) tal-Kap. 330; indagni li tinvolvi jekk l-istess 30 gurnata bdewx jghaddu mill-ittra ta' Dr André Camilleri tat-3 ta' Settembru 2004 jew mill-ittra, ukoll ta' Dr André Camilleri, datata 20 ta' Ottubru 2004. Fl-ewwel kaz, dan l-appell kien ikun gie intavolat *fuori termine* ghaliex gie ppresentat fit-12 ta' Novembru 2004.

Decizjoni

Għal dawn il-mottivi t-tribunal jiddikjara illi m'ghandux is-setgha li jisma' dan l-appell u jehles lill-Awtorità Għas-Servizzi Finanzjarji ta' Malta milli tibqa' izjed fil-gudizzju. Billi l-punt deciz f' dan l-appell qatt ma gie ttrattat qabel u gie sollevat *ex officio* mit-tribunal, l-ispejjez jibqghu bla taxxa bejn il-partijiet."

Bl-appell tagħhom lil din il-Qorti fil-kontestazzjoni tas-sentenza appena riprodotta, ir-rikorrenti jiccensuraw ir-ragonament u l-konkluzjoni tat-Tribunal dwar is-Servizzi Finanzjarji fejn dan, fuq l-eccezzjoni *marte proprio* sollevata, iddetermina illi la ma kienx hemm applikazzjoni formali skond it-termini ta' l-Artikolu 5 tal-Kapitolo 370, huwa gie, għal daqshekk, zvestit mill-kompetenza li jiehu għarfien ta' l-appell propost quddiemu fl-ambitu ta' l-Artikolu 19 (2) (d) tal-Kapitolo imsemmi. Bazikament, l-

argument kollu ta' l-appellanti hu rakkjuz fis-sottomissjoni illi, ankorke ma saretx minnhom applikazzjoni formali, it-talba taghhom giet ipprocessata mill-Awtorita` appellata fl-istadji kollha u nghatħat decizjoni ta' rifjut ta' l-istess talba u c-caħda tal-licenzja rikjestha. Minn dan kien jiskatta d-drift tagħhom ta' l-appell lit-Tribunal adit;

It-twegiba ta' l-Awtorita` għal dan l-aggravju qed tigi hekk sintetizzata:-

- (i) It-Tribunal kellu kull drift iqajjem *ex officio* l-eccezzjoni ta' l-inkompetenza tieghu;
- (ii) Il-valutazzjoni tat-Tribunal dwar jekk kienx hemm applikazzjoni sottomessa lill-Awtorita` hi materja ta' indoli fattwali u allura jsegwi li l-appell interpost ma sarx fuq punt ta' ligi, kif hekk irid l-Artikolu 21 (14) tal-Kapitolu 330. Dejjem in tema għal dan il-punt, skond l-Awtorita` kull ma għamel it-Tribunal kien dak li applika l-provvedimenti ta' l-Artikolu 19 (2), Kapitulu 370, ghall-fatti;

Huwa, bla dubju, fl-ordni logiku-guridiku illi l-ewwel aspett li din il-Qorti jokkorilha tinvesti, tikkoncerna l-pregudizzjali ta' l-inappellabilita` tad-deċizjoni;

L-Awtorita` appellata tagħmel enfasi fuq il-proposizzjoni illi t-Tribunal għamel semplice gudizzju tal-fatti rizultanti mill-provi u fuq dak l-apprezzament ibbaza l-parti operattiva u dispozittiva tas-sentenza tieghu. Din il-fehma mhix kondiviza minn din il-Qorti. Is-sentenza appellata tikkontjeni kjarament punti ta' ligi, l-interpretazzjoni u l-applikazzjoni tagħhom għas-sostenn ta' l-eccezzjoni procedurali ta' l-inkompetenza, mit-Tribunal stess imqanqla. F' din l-ottika ma jistax jingħad li dak li għamel it-Tribunal kien semplice konstatazzjoni tal-fatti. Hu anzi dahal fi kwestjoni legali u interpreta disposizzjonijiet tall-ligi. L-appell imbagħad lil din il-Qorti jirpoza ruhu f' kontestazzjoni ta' l-argoment kollu legali sostenu mit-Tribunal, apparti li jikkwerela l-kriterji adottati minnu.

Jikkonsegwi illi *pro tanto* l-appell kif koncepit huwa ammissibbli u l-eccezzjoni ta' l-inappellabilita` opposta mill-Awtorita` għandha tigi skartata in kwantu hu apparentement evidenti illi d-doljanza ta' l-appellant tikkostitwixxi kwestjoni cara ta' dak il-punt ta' dritt li jippreskrivi l-Artikolu 21 (14) tal-Kapitolu 330 ghall-iskop ta' l-appell quddiem din il-Qorti;

Eleminat it-terren tal-pregudizzjali sottomessa, l-indagini u deliberazzjoni tal-mertu ta' l-appell u tat-twegiba għalih jinnejx li qabel xejn jigu nkwadrati dawn l-aspetti sostanzjali:-

(1) Jidher li hemm qbil konkordanti bejn il-kontendenti illi l-proposta mill-appellant lill-Awtorita` għall-otteniment ta' licenzja għal servizzi ta' investiment saret taht forma ta' talba u mhux ta' applikazzjoni vera u proprja, kif hekk jippreskrivi l-Artikolu 5 tal-Kapitolu 370;

(2) Ciononostante, l-Awtorita` innifisha taccetta li dwar dik it-talba nghatħat decizjoni finali fit-3 ta' Settembru 2004 mis-Supervisory Council fi hdanha. Dan anke jekk, kif iż-żgħix minnha fin-Nota tagħha tat-18 ta' Frar 2005, hi giet "kostretta" tiprocedi għal tali decizjoni meta applikazzjoni kif tipprezumi l-ligi ma kienx hemm;

(3) Fil-gravam tagħhom kontra din id-decizjoni l-appellant l-mentaw li fir-rifjut tal-licenzja l-Awtorita` "*has wrongly applied the relevant provisions of the law regulating Investment Services and apart from being manifestly unfair constitutes an abuse of discretion*". Konsegwentement huma talbu lit-Tribunal biex dan iwarrab dik id-decizjoni. Ara ittra ta' l-appellant tat-12 ta' Novembru 2004 indirizzata lit-Tribunal u li, għal dik li hi korrettezza formali, tagħmilha rientranti fil-parametru ta' dak dispost fl-Artikolu 21 (11) tal-Kapitolu 330;

Jitnissel minn dan illi l-kwestjoni fundamentali proposta quddiem it-Tribunal kienet dik li jigi mistharreg u deciz il-mertu sostanzjali tar-rifjut tat-talba ta' l-appellant għal-

Kopja Informali ta' Sentenza

licenzja. Oltre dan, it-Tribunal kien imsejjah ukoll mill-Awtorita` biex jezamina wkoll il-fondatezza ta' l-eccezzjoni preliminari tat-tardivita` ta' l-appell interpost u li, skond l-istess Awtorita`, kien imur 'l hinn mill-perijodu statutorju utli ta' tletin jum prefiss fl-Artikolu 21 (11) tal-Kapitolo 330;

Dan premess, it-Tribunal deherlu li kelleu jissolleva *ex officio* l-inkompetenza tieghu li jiehu konjizzjoni tal-mertu ta' l-appell u ta' l-eccezzjonijiet procedurali u sostanziali, ghalih. Fuq dan in-nuqqas tal-gurisdizzjoni tieghu t-Tribunal statwixxa illi gjaldarba l-applikazzjoni ta' l-appellant ma' l-Awtorita` ma saretx bil-mod konformi dettat mill-Artikolu 5 ta' l-Att ta' l-1994 dwar Servizzi ta' Investimenti (Kapitolo 370), allura dan kien jirrendih hekk inkompetenti. Fil-fehma professa tat-Tribunal la darba il-onti ta' l-Artikolu 19 (2) (d) għandha l-origini tagħha fil-provvediment ta' l-Artikolu 5 surreferit, "logikament għalhekk isegwi li fl-assenza ta' applikazzjoni kif ikkontemplata fl-Artikolu 5 – kif inhu l-kaz in ezami – dan it-tribunal ma hux kompetenti li jiehu konjizzjoni ta' appell intavolat a bazi ta' l-Artikolu 19 (2) (d);"

Bir-rispett kollu dovut din il-Qorti tistqarr bla ebda ezistazzjoni li ma taqbel xejn ma' dan ir-ragonament tat-Tribunal li minnu itragga l-inkompetenza tieghu. Dan għal motivi li ser jigu spjegati aktar 'il quddiem;

Innegabilment, it-Tribunal, in kwantu organu gudizzjarju dotat b' poter decizorju, seta' dejjem iqajjem minn rajh in-nuqqas ta' kompetenza tieghu. Dan għar-raguni illi ebda qorti u ebda tribunal ma jistgħu jarrogaw għalihom gurisdizzjoni li ma għandhomx jew li l-ligi ma tippermettilhomx. Fuq dan, kif illustrat fil-bosta sentenzi senjalati mill-Awtorita` appellata fir-risposta ta' l-appell tagħha, il-gurisprudenza tagħna hi wahda konkordi;

Affermat dan, ma jfisserx imbagħad li l-motivazzjoni tat-Tribunal li ddikjara l-inkompetenza tieghu fuq dik il-bazi

kienet hekk guridikament valida u gustifikata. Applikati in via analogika l-principji tad-dritt procedurali fi kwestjoni quddiem qorti ta' gurisdizzjoni kontenzjuza, jinsab pacifikament akkolt illi huwa l-att promotur kif intavolat, it-talba u l-premessi għaliha li jifformaw il-parametru li fih it-tribunal jezercita l-gudizzju tieghu u li allura jiddeterminaw il-kompetenza tieghu. Ara f' dan is-sens id-decizjoni tal-Qorti ta' l-Appell tas-7 ta' Ottubru 1997 in re: "**Frankie Refalo nomine -vs- Jason Azzopardi et**". Naturalment ukoll, jista' jagħti l-kaz illi dik il-kompetenza tkun tiddependi wkoll, f' certi kazijiet, mill-eccezzjoni tal-konvenut. Ara **Kollez. Vol. XXXVII P I p 542 u Vol. L P II p 364;**

Fil-kaz prezenti, kif fuq għajnej manifest, it-talba posta mill-appellanti quddiem it-Tribunal kienet l-impunjattiva tad-decizjoni tac-caħda tal-licenzja rikjesta, konformement ma' dak stabbilit proprju fl-Artikolu 19 (2) (d) tal-Kapitolu 370. Din il-qaghda hi sew rikonoxxuta mill-Awtorita` appellata. Hi taccetta li kien hemm decizjoni, negattiva ghall-appellanti, li ttieħdet mill-Kunsill ta' Sorveljanza, hekk affidat bl-Artikolu 10 (1) tal-Kapitolu 330 bir-responsabilità` ghall-approvazzjoni u l-hrug ta' licenzji taht dak l-Att. Taccetta wkoll li dik id-decizjoni ttieħdet kif provvdut mill-Artikolu 8 (3) tal-Kapitolu 370 u li din giet debitament notifikata lill-kontroparti bl-ittra ta' l-istess Awtorita` tal-20 ta' Ottubru 2004. Kieku kellu jigi pretiz xor' ohra dan logikament iwassal ghall-ipparalizzar ta' l-eccezzjoni preliminari ta' l-Awtorita` innifsiha tat-tardivita` ta' l-appell mid-decizjoni tagħha;

Hu deducibbli minn dan appena espost illi l-kompetenza tat-Tribunal insorgiet mill-fatt tac-caħda tat-talba ta' l-appellant u mhux mix-xorta, formal iż-żejjew le, ta' l-applikazzjoni inizzjali tagħhom lill-Awtorita`;

Issa hu minnu li l-Att XIV ta' l-1994 (Kapitolu 370) jirregolamenta fl-Artikolu 5 tieghu l-forma ta' kif għandha ssir l-applikazzjoni mill-parti interessata għal ksib tal-

Kopja Informali ta' Sentenza

licenzja. F' dan il-kaz, pero` l-Awtorita` jew l-organi li jorbitaw madwarha, skond ir-ripartizzjoni tal-kompeti delinejati mil-ligijiet, ma ssollevaw ebda eccezzjoni ta' xi inosservanza mill-appellanti tal-precetti tal-ligi fl-artikolu suddett. Kieku hekk sar ma kien ikun hemm ebda dubju illi t-Tribunal kien ikun hekk fid-dmir li jiddelibera fuq in-natura u l-mertu ta' l-applikazzjoni u, allura jiddikjara wkoll illi l-appellanti ma kienux uniformaw ruhhom mal-ligi dwar il-formalita` ta' dik l-applikazzjoni;

B' danakollu fil-hsieb konsiderat ta' din il-Qorti, it-Tribunal ma kellux il-kompetitu li jissolleva l-kwestjoni *incidenter tantum* biex jistabilixxi illi minhabba n-nuqqas ta' dik l-istess formalita`, mhux eccepita mill-parti avversa fil-gudizzju, il-kompetenza tieghu ma kienetx tikkonfigura. Kieku stess, u dan qed jigi rilevat *gratia argomenti* biss, it-Tribunal kelli dik il-fakolta u wiehed jaccetta wkoll bhala motivazzjoni kongruwa dak dedott minnu fis-sentenza appellata, il-konkluzjoni tieghu kellha tkun l-improponibilita` u l-ivvizzjar tad-domanda quddiemu, in kwantu hu sab ruhu rinfaccjat b' vicenda processwali *litis ingressus impediens* ossija n-nuqqas ta' applikazzjoni formali. Koncettwalment, din is-sitwazzjoni hi ben distinta mill-kwestjoni tal-kompetenza. Isegwi allura illi, rigwardata anke taht dan ilprofil, il-kwestjoni relativa ma kienetx strettament u guridikament prekluziva tal-kompetenza tieghu;

Jekk hemm bzonn jigi ripetut; una volta, kif hekk inhu l-kaz hawnhekk, l-ebda difiza fis-sens determinat mit-Tribunal ma tqajmet mill-parti kontradittorja fil-gudizzju, l-istess Tribunal kien marbut li joqghod, ghal fini tal-kompetenza tieghu, mat-talba promotrici prezentata quddiemu mill-appellanti u hekk kontrastanti d-decizjoni ta' l-Awtorita` in korrelazzjoni mar-rikjesta specifika tal-licenzja u tac-cahda tagħha;

F' dawn ic-cirkostanzi din il-Qorti hi ta' l-opinjoni li għandha tiddiskosta ruhha mill-konkluzjoni tat-Tribunal fuq

Kopja Informali ta' Sentenza

din il-kwestjoni. Haga naturali gjaladarba s-sentenza appellata illimitat ruhha ghall-kwestjoni unika tal-kompetenza mit-Tribunal imqanqla, u li issa b' din is-sentenza ser tigi mhassra, huwa l-kaz illi l-atti jigu rimandati lura lit-Tribunal biex dan jiddeciedi l-ezitu definitiv tal-kontestazzjoni quddiemu, kompriz l-eccezzjoni ta' l-Awtorita` tal-vjolazzjoni tal-limitu temporali ghall-proponiment ta' l-appell u li, bid-decizjoni appellata, thalliet in disparte.

Għall-motivi kollha superjorment dedotti din il-Qorti qed tilqa' l-appell fil-kap devolut lilha mill-appellant u konsegwentement thassar u tirrevoka d-decizjoni tat-Tribunal li ddeterminat l-inkompetenza tieghu fuq l-eccezzjoni *marte proprio* sollevata. Tiddetermina invece li l-istess Tribunal kien hekk kompetenti li jiehu konjizzjoni ta' l-appell prezentat lilu u għal dan il-fini tirrinvija l-atti lura lit-Tribunal għad-definizzjoni u decizjoni tal-mertu ta' l-appell quddiemu u ta' l-eccezzjonijiet għalihi. Fic-cirkostanzi jixraq li l-ispejjeż relattivi jibqghu bla taxxa bejn il-partijiet.
